Three things worth doing this month — all free

1. **Email TU Ilmenau** (info.apply@tu-ilmenau.de) — ask which English certificate the programme demands, and whether your SMU transcript carries enough signal-processing credits. It is the strongest structural fit found anywhere: **free, no portfolio, no audition, no entrance exam**.
2. **Ask SMU for a medium-of-instruction letter**. It may waive the IELTS requirement outright at HfK Bremen and Tbilisi.
3. **Start the portfolio** — four to eight finished tracks, different roles, your role stated per track. Almost everything else waits on this.

The real crunch is April–May 2027, not September. Saint Louis Rome closes **30 April**, UCP Porto's usable phase ends **9 April**, TU Ilmenau closes **15 May**. Türkiye Bursları closes **20 February**.

Full method, per-country detail and the honest limits are in [results/THE-COMPLETE-GUIDE.md](#).
