

Could Not Verify — Where to Double-Check

Per the search rules, everything entering the database was checked against official sources where possible. Of **546 unique opportunities**, **272 are fully Verified**, **269 Partial** (most facts confirmed, a specific field or the 2027 date pending), and **5 Unverified**. Here's exactly where the gaps are so you know what to confirm yourself.

1. The 5 Unverified entries (official page was blocked or ambiguous)

Program	Institution	Country	Why unverified
Sound Engineering / <i>Tonrezhisura</i> (MA)	National Academy of Music "Prof. Pancho Vladigerov"	Bulgaria	Site confirms the academy but not this specific master's details
Sound Engineering (level unconfirmed)	Jāzeps Vītols Latvian Academy of Music	Latvia	Confirmed as a study field, but master's-level status not confirmed on site
MMus Pop — Creative Producer	Codarts Rotterdam	Netherlands	Program + fee pages sit behind Cloudflare; couldn't read automatically
Mestrado em Música (Jazz/Composition...)	ESML — Lisbon	Portugal	Official site was temporarily offline (redirect loop) at check time
MMus (performance/composition)	University of Ljubljana, Academy of Music	Slovenia	Only general non-EU fee info confirmed, not the program specifics

Action: open each institution's site directly (or email admissions) to confirm the program exists at master's level and its fees/language.

2. Systematic gaps that apply broadly (by design, given the July-2026 timing)

- **2027 application dates are mostly not published yet.** Anything marked `PRIOR CYCLE – confirm new date` shows the *last* cycle's dates as a guide. The 2027 windows will appear on the official pages between **~Oct 2026 and Feb 2027**. A handful are already confirmed as real future dates (Chevening 6 Oct 2026; KTH opens 16 Oct 2026 / closes 15 Jan 2027; Türkiye Bursları 10 Jan–20 Feb annually).
- **Exact international tuition** is sometimes only available via a university "fee calculator" rather than a published figure (e.g. HKU Utrecht). Marked `UNVERIFIED` in the tuition column where so.
- **Scholarship share / odds** — e.g. DIGICREA's often-quoted "~75% of students funded" could **not** be confirmed on the official page (it says only "a limited number per cohort"). Treat funding *rates* as indicative.
- **Eligibility fine print for Tunisians** is confirmed at the scheme level (Tunisia eligible for Erasmus Mundus, DAAD, Chevening, Stipendium Hungaricum, Türkiye Bursları, Banach, Irish IES, Fulbright). Some *national* schemes exclude Tunisia or are Balkans/ODA-restricted — those are flagged in the row (e.g. Commonwealth Master's: **not** open to Tunisia; some Australia Awards streams closed to Tunisia).

- **Portfolio/audition specifics** for arts/conservatory programs (exact format, whether a live audition vs. recorded) sometimes need confirmation per department.

3. Things only YOU can resolve

- **SISGP (Swedish Institute)** requires ~3,000 hours of work experience — confirm whether you'll qualify; if not, use the KTH Scholarship (tuition) route instead.
- **Fulbright** 2027-entry is already closed confirm whether you're targeting the **2028** cycle instead.
- **Türkiye Bursları** has an **under-30** age rule for master's — confirm you're within it at application.
- **DAAD** routes purely artistic applicants to a separate scheme — confirm your target program counts as academic/technical vs. artistic.
- **Language:** a few programs (some Hungarian, Czech, Slovenian music programs) may require the local language despite English being listed elsewhere — confirm per program.

Bottom line

The **funded shortlist (Tier 1–2 in `SHORTLIST.md`)** is **verified at the scheme level** — the schemes exist, fund Tunisians, and fit you. The single recurring "to confirm" across nearly all of them is the **exact 2027 deadline**, which each official page will publish in the coming months. Set reminders to re-check the source URLs from **October 2026** onward.
