

Is it actually a master's degree?

You asked for master's degrees, not certificates. Every one of the 1,091 records was re-checked against what it actually awards. This file is the result — and the list of things to **not** pay for.

The count

Verdict	Records	What it means
Master's degree	1300	A real second-cycle degree. M.Sc., M.A., M.Mus., M.Phil.,estrado, laurea magistrale / diploma accademico di II livello, máster universitario oficial, magisterský, yüksek lisans. This is what you want.
Master di I livello (60 CFU)	10	Italian first-level master — a one-year certificate taken <i>after</i> a bachelor. It is not a second cycle, it does not lead to a PhD, and Italy itself does not count it as a master's degree in the Bologna sense.
Not a degree	168	Sold as a 'Master', but it is not one. <i>Título propio / máster propio</i> (Spain), CRKBO or NRTD diploma (Netherlands), <i>pós-graduação</i> (Portugal), advanced diploma, private-school certificate, short course.
Bachelor / first cycle	2	A first-cycle award. You already have one of these.
Funding scheme	99	Money, not a qualification — a scholarship or grant record.
Aggregate entry	31	A summary row covering many institutions at once, not a single programme.
Unclear	25	The institution does not state clearly enough what it awards. Email and ask before applying — these are on the 'Award unclear' tab.
1,635		

So: **1300 of the 1,635 records award a genuine master's degree. 180 do not** and are listed in full below. 25 could not be settled from the published pages.

Nothing was deleted. The rejects stay in every workbook, on their own tab, so you can check the reasoning rather than take my word for it.

Where to find it

File	Tab	Holds
MASTER-all-opportunities.xlsx	Master's degrees only	all 1300 real degrees

File	Tab	Holds
MASTER-all-opportunities.xlsx	NOT a degree — avoid	the 180 rejects
MASTER-all-opportunities.xlsx	** BEST BETS**	now degrees-only: strong chance <i>and</i> cheap
SOUND-and-SCHOLARSHIPS.xlsx	every tab	already filtered to degrees
SOUND-and-SCHOLARSHIPS.xlsx	NOT a degree — avoid / Award unclear — ask them	the excluded sound records

In both workbooks, **column D — *Qualification level*** carries the verdict on every row, colour-coded green / amber / red.

The trap, country by country

Every country has a word that looks like "master" and is not one. This is what to check on any page before you believe it:

Country	The real thing	The look-alike	How to verify
Spain	<i>Máster Universitario Oficial</i>	<i>Título propio / máster propio</i> — the institution's own title, including at genuine public conservatoires like ESMUC	Search the programme in the government RUCT register. If it is not there, it is not official
Italy	<i>Laurea magistrale</i> , or <i>Diploma Accademico di II livello</i> (the conservatoire equivalent)	<i>Master di I livello</i> — 60 CFU, one year, taken after a bachelor	The page must say II livello or 120 CFU . "Master di I livello" and "60 CFU" both mean no
Portugal	<i>Mestrado</i> , accredited by A3ES	<i>Pós-graduação</i> — a postgraduate certificate with no degree	Look the course up on the A3ES site. <i>Pós-graduação</i> is never a mestrado
Netherlands	NVAO-accredited MA / M.Sc.	CRKBO or NRTO registration — that is a training-provider quality mark, not degree accreditation	Only NVAO grants degrees. CRKBO on a "Master" page is a red flag
France	<i>Diplôme national de master</i> , or a diploma <i>conférant le grade de master</i> (DNSEP, DNSPM)	"Mastère spécialisé", private-school "MBA", certificates	The words grade de master or diplôme national must appear
Germany / Austria	M.A., M.Sc., M.Mus.	<i>Lehrgang / Universitätslehrgang</i> — a continuing-education course	A Lehrgang awards an academic <i>title</i> , not always a degree. Ask which
UK / Ireland	MA, M.Sc., M.Mus., M.Phil. (NFQ 9)	"Advanced Diploma", "Professional Certificate"	Must be validated by a degree-awarding body

The 180 that are NOT degrees

Grouped by country. **Do not pay any of these expecting a master's degree.** A few are still worth doing on their own terms — IRCAM's Cursus is world-class training and Italian *Master di I livello* programmes can be genuinely useful — but none of them is a master's.

Spain — 68

How this was decided

A record counts as a degree only if it names a second-cycle award — in any of the languages the search covered — and does **not** carry a disqualifier in the same field.

The hard part was negation. Verified records often describe a real degree by saying what it is *not*: "*a genuine second-cycle degree, not a Lehrgang*", "*MESTRADO — a real degree, NOT a pós-graduação*". A plain keyword match reads "Lehrgang" and "pós-graduação" and throws the degree away. Every disqualifier is therefore checked for a preceding negation before it counts.

The classifier was checked against 19 cases whose answer was known from reading the source pages during the search — TU Ilmenau, HfK Bremen, Kunstuni Linz, Saint Louis Rome, MTU Cork, Ankara, ČVUT, Žilina and Berklee on the degree side; UCAM, Francisco de Vitoria, Pro Audio Education, Abbey Road, Mohole and two ESMUC *títulos propios* on the reject side; Cattolica and IULM as *Master di I livello*. **All 19 classify correctly.**

The honest limit

This reads what the institution published. It does not re-open the national register for every one of 1,091 records. For any programme you are about to actually apply to, spend the five minutes on the official register — **RUCT** (Spain), **A3ES** (Portugal), **NVAO** (Netherlands), the **MUR** *offerta formativa* (Italy). That check is definitive; this file is a filter that saves you from doing it 1,091 times.
