

The Máster en Enseñanzas Artísticas register — how it actually works

Written for wave 2+ and the QA pass. All facts below carry a URL; access date **2026-08-25**.

Companion dataset: `output/wave1/registry-ensenanzas-artisticas.jsonl` (47 rows).

1. The one-paragraph version

Spain runs **two parallel official higher-education systems**. Universities award Máster Universitario, verified by ANECA and registered in **RUCT**. Conservatories and authorised arts centres award Máster en Enseñanzas Artísticas under the education (not university) branch of the law — **these are equally official, MECES level 3 / EQF 7, and give doctoral access, but they are NOT in RUCT and never will be**. Their proof of officiality is a **BOE homologation order** signed by the Ministry of Education, plus an entry on the Ministry's own arts register at `infoartisticas.gob.es`. Applying brief rule 6 ("not in RUCT = título propio") to this sector produces a wrong answer every single time.

2. The authorisation chain — who does what

Legal basis: **Real Decreto 1614/2009**, de 26 de octubre

(<https://www.boe.es/buscar/act.php?id=BOE-A-2009-17005> <<https://www.boe.es/buscar/act.php?id=BOE-A-2009-17005>>), which orders the enseñanzas artísticas superiores established by LOE 2/2006.

The chain, in order:

1. **The autonomous community proposes.** The centre designs a plan de estudios; its comunidad autónoma submits it to the Ministry for homologation. (Wave-1 worked example: the Comunitat Valenciana proposed the Sonología plan.)
2. **A quality agency evaluates.** Art. 17 RD 1614/2009 names "*la ANECA o los órganos de evaluación creados por las comunidades autónomas*". So it is **not always ANECA** — the Aragón contemporary-music master was evaluated by **ACPUA**, Aragón's own agency (BOE-A-2017-7087). **Do not treat "no ANECA report" as evidence against officiality.**
3. **The Consejo Superior de Enseñanzas Artísticas reports.** An advisory favourable report precedes ministerial approval.
4. **The Ministry homologates by Orden.** Art. 13.5. The Orden is published in the BOE and is *the* citable proof of official status. Signing ministry name drifts with governments: ECD/... (2015-2017) → EFP/... (2018-2023) → EFD/... (2026). Do not read the prefix as a different register.
5. **The title is inscribed in the state registry of non-university centres**, which has the effect of initial accreditation. Re-accreditation every 6 years (art. 17).

Net: the Ministry authorises the title; the autonomous community proposes it and runs the centre. Both are involved — the common shorthand "the region authorises it" is wrong.

What a BOE order looks like

Orden EFP/673/2023, de 14 de junio, por la que se homologa el plan de estudios del Título de Máster en Enseñanzas Artísticas en Sonología Aplicada y Creación Sonora del Conservatorio Superior de Música "Joaquín Rodrigo" de Valencia — BOE-A-2023-14865,

https://www.boe.es/diario_boe/txt.php?id=BOE-A-2023-14865 <https://www.boe.es/diario_boe/txt.php?id=BOE-A-2023-14865>. It names the proposing community,

the evaluating agency, the Consejo Superior report date, and the **centre code** (46013219).

Note: the BOE order text itself did **not** publish an anexo with ECTS or access rules — so the BOE proves *status*, not *entry requirements*. Those live on the centre's page.

Record the BOE reference in ruct_code prefixed BOE:, and put NOT IN RUCT – expected for this register in notes. Never leave `official_status` as UNKNOWN merely because RUCT is silent.

3. Is there a searchable public register? Yes — one, and it is imperfect

<https://www.infoartisticas.gob.es/enseanzas/musica/superiores-musica/superiores-master-musica.html> <<https://www.infoartisticas.gob.es/enseanzas/musica/superiores-musica/superiores-master-musica.html>>

The Ministry's own page, grouped by autonomous community → centre → title, with the BOE reference beside most titles. Sister pages exist for

Diseño <<https://www.infoartisticas.gob.es/enseanzas/artes-plasticas-diseno/superiores-grado-diseno/superior-master-diseno.html>>

and **Artes Plásticas** <<https://www.infoartisticas.gob.es/enseanzas/artes-plasticas-diseno/superiores-artes-plasticas/superiores-master-aapp.html>>;

a centre-finder is at <https://www.infoartisticas.gob.es/administraciones/administraciones-centros.html> <<https://www.infoartisticas.gob.es/administraciones/administraciones-centros.html>>.

Three limitations you must carry forward:

- **It is incomplete.** Aragón's CSMA masters are homologated (BOE-A-2017-7087) yet do **not** appear on the music page. So absence from `infoartisticas` is *not* proof a title is unofficial — cross-check the BOE.
- **It lags.** A July-2026 order (BOE-A-2026-15287, Escuela Superior Musical Arts) is in the BOE but was found via BOE search, not via the register page. The register is still growing.
- **Some rows carry no BOE reference at all** (e.g. Katarina Gurska's Composición Electroacústica, Musikene's Estudios Orquestales). Those are recorded NOT FOUND in the dataset rather than guessed.

Reliable second route: BOE full-text search for

homologa el plan de estudios + Máster en Enseñanzas Artísticas + the centre name. That is how the Aragón and 2026 orders were confirmed.

`educagob.educacionfpydeportes.gob.es` paths for this topic 302 → 404 and are dead; use `infoartisticas.gob.es`.

4. Entry requirements — the part that actually decides this candidate's fate

The legal floor is generous

Art. 15 RD 1614/2009, verbatim:

"Para acceder a las enseñanzas oficiales de Máster será necesario estar en posesión de un Título Superior oficial de enseñanzas artísticas, de un título oficial de Graduado o Graduada o su equivalente expedido por una institución del Espacio Europeo de Educación Superior que faculte en el país expedidor del título para el acceso a enseñanzas de Máster."

A Título Superior de Música is NOT legally required. Any official Grado qualifies. Holders of non-EHEA qualifications may also be admitted once the competent education administration verifies an **equivalent level of training** — expressly *without* full homologación.

But art. 16 hands the gate back to the centre

Admission is by centre-set **specific requirements and merit criteria**, which may include prerequisites in particular disciplines. **This is where the real filter sits**, and in practice it is almost always an audition or a composition portfolio rather than a degree rule.

So the correct question is never "does it require a Título Superior?"

It is "**what does the prueba de acceso consist of?**" A programme can accept any Grado and still be unreachable because 40% of the admission score is a contemporary-music portfolio (RCSMM), or because the sole criterion is talent judged at audition (Reina Sofía).

What was found, per programme (13 in-scope titles)

Gate	Programmes
Genuinely open — non-music degree accepted <i>and</i> no audition	Musikene Mediación, Gestión y Difusión Musical (field P)
Open on degree, portfolio-gated	Musikene Creación de la Música Contemporánea (3 own compositions on video); Katarina Gurska MCE (" <i>muestras de trabajos recientes</i> " — no scores demanded); Katarina Gurska MCAV (" <i>partitura+audio</i> " — scores demanded, effectively closed)
Explicit Título Superior de Música gate	RCSMM Nuevas Tecnologías; CSMA Aragón Música Contemporánea; Liceu Composición Aplicada
Open on degree, closed by audition	Reina Sofía Composición Dramática
Unresolved — needs a human	ISEACV Valencia Sonología Aplicada ; ISEACV Castelló Composición Multimedia; ESMUC Recerca Musical; Gurska Investigación Musical Interdisciplinar; CSM Vigo

Non-EU applicants: a live contradiction, logged not resolved

- Art. 15 RD 1614/2009 and **Musikene**: prior **verification of equivalent level** by the competent education administration; homologación *not* required.
- **ESMUC**: "*the homologation of the degree is not necessary, but it will be necessary to verify in advance that the degree accredits an equivalent level*" — agrees.
- **Escuela Superior de Música Reina Sofía**: states foreign credentials **must be homologated through the Ministry of Education** — stricter, and conflicts with the above.

For a Tunisian applicant on a Sept-2027 timeline this is weeks versus many months of paperwork. Both values are recorded against their sources; **do not silently pick one.**

5. Traps specific to this sector

1. **RUCT absence proves nothing here.** Confirmed empirically in wave 1: querying RUCT for the conservatory sector returns zero master rows while the same titles carry BOE orders. `output/ruct-backbone.jsonl` and `ruct-detail.jsonl` cover the **university** register only.
 2. **Conservatories award BOTH kinds, side by side, on the same website.** ESMUC is the trap: its six performance/research masters are official register titles, while **Composició amb Tecnologies** and **Management i Producció Musical** — the only two ESMUC masters that sit in fields A and P — are labelled `master propi` by ESMUC itself and are absent from the Ministry register. **ESMUC offers nothing official in fields A or P.** Same pattern at the Liceu, whose *Cursos de Music Training* are own-title.
 3. **Third parties teach on conservatory premises without conservatory status.** IMB (International Music Business School) holds classes at the Liceu; it is not a Liceu title and not in this register. Location is not accreditation.
 4. **"Título Oficial ... Nivel MECES 3" on a private centre's own page is a claim, not a source.** Katarina Gurska states it for MCE and MCAV; both appear in the Ministry register, but neither row shows a BOE order. Recorded as present-in-register with `boe_order: NOT FOUND`.
 5. **The evaluating agency varies by region** (ANECA vs ACPUA vs others) — see §2.2.
 6. **Ministry name prefixes drift** (ECD → EFP → EFD) — see §2.4.
-

6. Coverage — every community checked

Homologated music masters found in: Aragón, Castilla y León, Cataluña, Galicia, Madrid, País Vasco, Comunitat Valenciana.

None found in: Andalucía, Asturias, Baleares, **Canarias**, Cantabria, Castilla-La Mancha, Extremadura, Murcia, **Navarra**, La Rioja. The superior conservatories of **Canarias** and **Navarra** — both named in the task — publish access tests for their *Grado/Título Superior* only; no master appears against them in the Ministry register. Recorded as a **negative result**, citing the register page. Note Andalucía has its own Decreto 54/2022 covering "*enseñanzas artísticas de máster y estudios de doctorado propios*" — a regional own-title track, which is **not** the state-homologated register described here and should not be conflated with it.

Institutions named in the task, resolved:

ESMUC ✓ (6 official, 0 in fields A/P) · Musikene ✓ (5 official, incl. the one genuine opening) · Liceu ✓ (5 official) · Reina Sofía ✓ (2 official) · Valencia ✓ · Madrid RCSMM ✓ · Aragón ✓ · Galicia/Vigo ✓ · Castilla y León ✓ · Canarias ✗ none · Navarra ✗ none.

Others found beyond the task list: Escuela Superior de Canto de Madrid, Forum Musikae, Progreso Musical, Katarina Gurska, Música Creativa, ESMAR (València), Escuela Superior Musical Arts, CSM Óscar Esplá (Alacant), CSM Salvador Seguí (Castelló).

7. Open items for a human

1. **ISEACV Valencia — Sonología Aplicada y Creación Sonora.** Highest content fit in the entire register (deep learning, Python, Max/MSP). Its programme page lists *recommended* music profiles but states no exclusion, and the linked `Proceso de admisión / Convocatoria acceso` PDFs on <https://www.csmvalencia.es/postgrado/> <<https://www.csmvalencia.es/postgrado/>> were not retrievable. **Email the**

centre and

ask directly whether a non-music Grado plus a technical/production portfolio is admissible.

The answer either makes this the top conservatory option or removes it entirely.

2. **ISEACV Castelló — Composición Multimedia.** Same question; likely shares an ISEACV admission regulation with (1). Its access-procedures page 404'd.
3. **Katarina Gurska MCE** — confirm the BOE order number and the DELE A2 requirement.
4. **CSM Vigo, ESMUC Recerca Musical, Gurska Investigación Musical Interdisciplinar** — entry requirements unverified.
5. **Reina Sofía vs everyone else on non-EHEA homologación (§4)** — needs an authoritative ruling.

Budget note: the session-wide WebSearch cap (200) was reached during this slice; items 3-5 were cut for that reason, not because the sources do not exist. WebFetch on known URLs still worked and was used to the end.
