

Shortlist — top 15

Formula, as specified in the brief: **funding availability 40% · field fit 25% · official status & recognition 15% · language accessibility 10% · credit-recognition upside 10%**. Each component is scored 0–1 then weighted. The arithmetic is shown per programme; nothing is hidden.

A component scores 0 when the underlying fact is **NOT FOUND** — so a low score here can mean *unknown*, not *bad*. Check `gaps.md` before discarding anything.

1. Master in Machine Learning for Health — Universidad Carlos III de Madrid (UC3M)

Score 100.0/100 · Leganés, Madrid (Campus Leganés) · AA | B · máster universitario (OFFICIAL). RUCT 4316958. Estado: 'Publicado en B.O.E. (TITULACIÓN RENOVADA)'. Nivel académico: Máster - RD 822/2021 (3) — the newest legal framework, unlike the other three UC3M programmes here which sit under RD 1393/2007. Nivel MECES 3; Rama: Ingeniería y Arquitectura; Campo: Ingeniería eléctrica, electrónica y de la telecomunicación. Fecha de verificación 05/06/2019; BOE 17/12/2019, 04/05/2020, 28/11/2023, 14/02/2026; Resolución Favorable para la Renov. de la Acreditación 21/10/2024. Not a título propio. · Inglés (English)

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	1.00	25	25.0
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 5044.2 (2025-26 (curso 25/26, explicitly provisional for 2026-27; 2027-28 NOT PUBLISHED) rates) · non-EU surcharge: YES — explicit, and at the Madrid statutory rate rather than the higher UC3M 'own' band. Verbatim: 'ESTUDIANTES NACIONALES Y COMUNITARIOS (45,02€/ECTS) — Primer curso - 60 ECTS — 2.701,20€' and 'ESTUDIANTES EXTRACOMUNITARIOS (84,07€/ECTS) — Primer curso - 60 ECTS — 5.044,20€'. That is +86.7% (+39,05 EUR/ECTS, +2,343 EUR over the programme). Footnote verbatim: '* Precios vigentes para el curso 25/26, pendientes de aprobación por la Comunidad de Madrid para el curso 26/27'. NOTE 84,07 EUR/credit is the same non-EU figure the shared brief records for URJC ('Estudiantes extracomunitarios, no residentes at 84.07 EUR/credit vs 45.02 first enrolment') — i.e. these are the Comunidad de Madrid statutory precios públicos, not a UC3M-specific tariff, which is why this master is roughly 30% cheaper than the UC3M Big Data / Statistics masters despite the same university and credit count. A Tunisian citizen on a study authorisation is non-resident and pays 84,07.
- 300-ECTS recognition: NOT FOUND for a 300-ECTS entrant. No advanced-standing or reconocimiento-de-créditos scheme keyed to an over-length prior degree is published on this page. What IS published is the reverse: extra credits (complementos) can be ADDED for a mismatched profile. The only discretionary relief published is the comisión's power of 'eximiendo la realización de alguno de ellos' — i.e. exemption from complementos, not recognition against the 60 ECTS. UC3M's general 'Normativa de reconocimiento de créditos' is linked from the MATRÍCULA tab but is not programme-specific. This must be raised directly with the comisión académica.
- Application window 2027: 2027-28 (Sept 2027 intake) calendar NOT YET PUBLISHED as of 2026-08-25. Published 2026-27 general-masters calendar: 1 DIC 2025 - 31 ENE 2026; 1 FEB - 31 MAR 2026; 1 ABR - 31 MAY 2026. Programme page currently reads 'Plazo de admisión: CERRADO'.

2. Master's Degree of Science in Telecommunication Engineering — Universidad de Jaén (UJA) — Escuela Politécnica Superior de Linares

Score 98.0/100 · Linares (Jaén) · B | C · máster universitario · English (the entire programme is conducted in English; B1 English required)

Component	Raw	Weight	Contribution
funding	0.95	40	38.0
field_fit	1.00	25	25.0
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 1135.8 (2025-26 (Andalusian Decreto 98/2023 as modified by Decreto 142/2025; habilitante-master rate) rates) · non-EU surcharge: NO — but with an important caveat about how it was sourced, and a live legal risk. UJA's own FAQ 'Si soy estudiante extranjero o extranjera, ¿Qué precio tengo que pagar por la matrícula?' answers that international students pay THE SAME public prices as students of Spanish nationality, even without resident status. PROVENANCE: that UJA page currently returns HTTP 500 on every fetch (WebFetch and curl alike); this answer was obtained from the SEARCH INDEX, not read on the primary page — 'source_access: search index — page returns HTTP 500, not directly fetched'. NEEDS A HUMAN TO OPEN IT IN A NORMAL BROWSER. LIVE RISK: Decreto 98/2023 art. 3.2 EXPRESSLY PERMITS Andalusian universities to raise prices for non-EU non-resident students by up to 100% of the cost of the service. Andalucía is therefore one of the communities the brief warns about, where the decree authorises rather than fixes the non-EU price — so the real figure must come from UJA's own tariff, and UJA's own tariff page is the one that is down. The decree text itself contains no non-EU price. Current best answer: no surcharge levied by UJA, sourced from the search index only.
- 300-ECTS recognition: NOT FOUND — no reconocimiento de créditos or advanced-standing statement. Note the reverse risk here: this is a REGULATED (habilitante) profession master, where a foreign degree is normally required to be homologado or to carry the CIN/355/2009 competences; a 300-ECTS Tunisian software engineering degree may face complementos rather than exemptions.
- Application window 2027: 2027-28 dates NOT YET PUBLISHED. Admission is NOT handled by the university: preinscripción and place allocation are centralised by the DISTRITO ÚNICO ANDALUZ (DUA, <https://lajunta.es/portaldua>); one application covers all Andalusian public universities and may list up to six masters in order of preference. Full DUA calendar for curso 2026/2027 (marked 2026-27, NOT shifted forward): PRIMERA FASE — RESERVED FOR ESTUDIANTES EXTRANJEROS: solicitudes 'Desde el día 13 a lo largo del día al 29 de enero de 2026'; Lista 1 19 febrero (reclamaciones 19–24 feb, pago 20–24 feb); Lista 2 12 marzo (reclamaciones 12–17 marzo, pago 13–17 marzo); Lista 3 9 abril (reclamaciones 9–14 abril, pago 10–14 abril). SEGUNDA FASE (españoles y extranjeros): solicitudes 17–26 junio 2026; Lista 1 22 julio (reclamaciones 22–24 julio, matrícula 23–27 julio); Lista 2 14 septiembre (reclamaciones 14–16 sept, matrícula 15–17 sept); resultas 29 sept, 9 oct, 20 oct, 28 oct. TERCERA FASE (españoles y extranjeros): solicitudes 8–15 septiembre 2026; Lista 1 29 septiembre; Lista 2 9 octubre; resultas 20 y 28 octubre. NON-EU EARLY ROUND: YES, EXPLICITLY — the Primera Fase exists for foreign students and runs in JANUARY, five months before the general round. For a September 2027 intake the equivalent window would fall in January 2027, which is the earliest hard deadline of any programme in this batch.

3. Master in Big Data Analytics — Universidad Carlos III de Madrid (UC3M)

Score 97.5/100 · Madrid (Campus Madrid - Puerta de Toledo) · AB | X | AA · máster universitario (OFFICIAL). RUCT 4315583. Estado: 'Publicado en B.O.E. (TITULACIÓN RENOVADA)'. Nivel académico: Máster - RD 1393/2007 (1); Nivel MECES 3; Rama: Ingeniería y Arquitectura. Fecha de verificación 03/08/2015; BOE 24/12/2015, 22/02/2016, 31/03/2017; Resolución Favorable para la Renov. de la Acreditación 12/12/2024 and 19/07/2019. The UC3M page's CALIDAD block states verbatim 'Año de implantación: 2015' and links 'Información sobre el carácter oficial del título' + 'Memoria de Verificación'. Not a título propio. · Inglés (English)

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 7200 (2025-26 (explicitly provisional for 2026-27; 2027-28 NOT PUBLISHED) rates) · non-EU surcharge: YES - explicit. Verbatim from the master's MATRÍCULA tab: 'ESTUDIANTES NACIONALES Y COMUNITARIOS (80€/ECTS) — Primer curso - 60 ECTS — 4.800€' and 'ESTUDIANTES EXTRACOMUNITARIOS (120€/ECTS) — Primer curso - 60 ECTS — 7.200€'. +50% (+40 EUR/ECTS, +2,400 EUR over the programme). Footnote verbatim: '* Precios vigentes para el curso 25/26, pendientes de aprobación por la Comunidad de Madrid para el curso 26/27'. The optional MBA complemento carries its own surcharged pair, verbatim: 'Máster en Administración de Empresas (MBA) — 225 €/ECTS [nacional/comunitario] — 330 €/ECTS [extracomunitario]'. A Tunisian citizen on a Spanish long-stay study authorisation counts as non-resident, so the extracomunitario row applies.
- 300-ECTS recognition: NOT FOUND for an over-length foreign degree. UC3M publishes NO advanced-standing rule for a 300-ECTS entrant on this page. What IS published is credit recognition inside the DOUBLE-master routes, verbatim from the same page: 'Doble Máster en Ingeniería de Telecomunicación y Métodos Analíticos para Datos Masivos: Big Data — 24 ECTS reconocidos — CERRADO' and 'Doble Máster en Ingeniería Informática y Métodos Analíticos para Datos Masivos: Big Data — 30 ECTS reconocidos — CERRADO', with 'En función del doble máster cursado, se te reconocerán los créditos ECTS correspondientes para que puedas obtener en dos años académicos, dos titulaciones de Máster Oficial.' A general 'Normativa de reconocimiento de créditos' is linked from the MATRÍCULA tab. The 300-ECTS question itself is unanswered by the primary source and must go to the Comisión Académica.
- Application window 2027: 2027-28 (Sept 2027 intake) calendar NOT YET PUBLISHED as of 2026-08-25. Published 2026-27 general-masters calendar: 1 DIC 2025 - 31 ENE 2026; 1 FEB - 31 MAR 2026; 1 ABR - 31 MAY 2026 (resolutions 27/02, 30/04, 23/06/2026). Programme page currently shows 'Plazo de admisión: CERRADO'.
- Verification: VERIFIED

4. MSc in Data Science (the programme's own site uses 'Master's Degree in Data Science' / 'European MSc in Data Science') — Universidad Politécnica de Madrid (UPM)

Score 97.5/100 · Madrid — E.T.S. de Ingenieros Informáticos (ETSIINF), Campus de Montegancedo, Boadilla del Monte · AB | AA | AC · máster universitario (OFFICIAL). RUCT 4316972. Estado: 'Publicado en B.O.E. (TITULACIÓN RENOVADA POR ACREDITACIÓN INSTITUCIONAL)'. Nivel académico: Máster - RD 1393/2007

(1); Nivel MECES 3; Rama: Ingeniería y Arquitectura; Campo: Ingeniería informática y de sistemas. Fecha de verificación 05/06/2019; BOE 17/12/2019 and 20/12/2022; Resolución Favorable Acreditación Institucional 18/06/2026 (i.e. re-accredited two months before access date). UPM's own catalogue page labels it 'Título Oficial'. The programme site states verbatim: 'El máster oficial se encuentra inscrito en el RUCT y aquí puedes encontrar el informe final de verificación. El máster se implantó en el curso académico 19/20 y se viene impartiendo de forma ininterrumpida en la Escuela Técnica Superior de Ingenieros Informáticos, en el Campus de Montegancedo.' Additionally holds the international EURO-INF quality label. Not a título propio. · Inglés (English) — 100%

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 5044.2 (Rates in force at access date 2026-08-25 under DECRETO 43/2022 de la Comunidad de Madrid; UPM's price page does not stamp a curso on the table itself, and the linked UPM 'NORMATIVA DE MATRICULACIÓN CURSO 2026-2027' was approved 25 June 2026, so these are the 2026-27 figures. 2027-28 rates NOT PUBLISHED. rates) · non-EU surcharge: YES — explicit, published by UPM itself as a named column, and legally grounded. UPM's 'Precios públicos para Másteres Oficiales' page prints a two-column table headed verbatim 'Máster Universitario | Estudiantes españoles y de la Unión Europea | Estudiantes Extracomunitarios ()', where () is defined verbatim as 'ESTUDIANTES EXTRANJEROS, mayores de dieciocho años que no tengan la condición de residentes, excluidos los nacionales de Estados miembros de la Unión Europea, y aquellos a quienes sea de aplicación el régimen comunitario'. THE MECHANISM (from UPM's own PDF, <https://www.upm.es/gsf/sfs04229>), verbatim: 'El DECRETO 43/2022 también establece el importe de los precios públicos por crédito para ESTUDIANTES EXTRANJEROS ... a) En el caso de másteres del ANEXO I: los precios de cuarta matrícula, b) y para el resto de estudios de máster oficial (ANEXO II), lo previsto para la tercera y sucesivas matrículas.' — i.e. a non-EU non-resident is charged the RESALE/repeat-enrolment rate from day one. THE RATES (Decreto 43/2022, Comunidad de Madrid, in force at access date): ANEXO I / habilitantes and Ingeniería Informática — 19,43 €/crédito EU vs 154,80 €/crédito extracomunitario (60 ECTS: 1.165,80 € vs 9.288 €). RESTO DE MÁSTERES (ANEXO II) — 45,02 €/crédito EU vs 84,07 €/crédito extracomunitario (60 ECTS: 2.701,20 € vs 5.044,20 €). Dobles másteres containing an Anexo I programme — 32,23 € vs 119,44 €. THIS MASTER IS ANEXO II ('resto de másteres'): it is NOT named in the Anexo I list, so the rate is 84,07 €/crédito, +86.7% over the EU rate. THE RESIDENCY TRAP IS CLOSED EXPLICITLY: 'A estos efectos, la autorización de estancia concedida a los estudiantes extranjeros de acuerdo con el Real Decreto 557/2011 ... no equivaldrá a la condición de residentes' (SFS04229 PDF); the current web version cites the successor 'Real Decreto 1155/2024, de 19 de noviembre'. A Tunisian citizen on a Spanish study authorisation therefore CANNOT escape the surcharge by living in Madrid.
- 300-ECTS recognition: Mechanism EXISTS and is documented, but no 300-ECTS-specific entitlement is published. Verbatim: 'All information regarding the recognition and transfer of credits is available here. The Academic Committee of the Master's Degree in Data Science (CAMCD) will assess the requests and draw up the corresponding reports, which will be sent to the Academic Organization Committee of the School of Computer Engineering, which in turn will issue a report and send it to the Vice-Rector's Office for Students. The resolution granting or denying the recognition of credits will be adopted by the President of the Credit Recognition and Transfer Committee in accordance with the provisions of art. 5 d) of the regulations.' So there IS a named, multi-stage route (CAMCD -> ETSIINF Academic Organization Committee -> Vice-Rectorate -> Credit Recognition and Transfer Committee) into which a 300-ECTS applicant can put a request, and UPM maintains a university-wide 'Reconocimiento de Créditos' section. What is NOT published anywhere is any

automatic advanced standing, exemption or shortened path for an over-length (300 ECTS, 5-year) prior degree. THE 300-ECTS QUESTION IS THEREFORE: mechanism yes, entitlement NOT FOUND. Note the counter-pressure: the master is only 60 ECTS with 36 compulsory and a 12-ECTS TFM, leaving little that could plausibly be recognised.

- Application window 2027: 2027-28 (Sept 2027 intake) calendar NOT PUBLISHED as of 2026-08-25. Published UPM calendar is for curso 2026-27: 1st round 26 Jan–12 Mar 2026; 2nd round 13 Mar–12 May 2026; 3rd round 13 May–1 Jul 2026; extraordinary 31 Aug–4 Sep 2026. Enrolment 22–30 Jul 2026. Dates NOT shifted forward.
- Verification: VERIFIED

5. Master in Statistics for Data Science — Universidad Carlos III de Madrid (UC3M)

Score 96.2/100 · Madrid (Campus Madrid - Puerta de Toledo) · AB · máster universitario (OFFICIAL). RUCT 4316664. Estado: 'Publicado en B.O.E. (TITULACIÓN RENOVADA)'. Nivel académico: Máster - RD 1393/2007 (1); Nivel MECES 3; Rama: Ciencias; Campo: Matemáticas y estadística. Fecha de verificación 06/06/2018; BOE 21/12/2018 and 26/07/2019; Resolución Favorable para la Renov. de la Acreditación 17/01/2024. The UC3M page itself carries a 'CALIDAD / Información sobre el carácter oficial del título' block with the Memoria de Verificación. Not a título propio. · Inglés (English)

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.85	25	21.2
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 7200 (2025-26 (explicitly provisional for 2026-27; 2027-28 NOT PUBLISHED) rates) · non-EU surcharge: YES - explicit and large. UC3M publishes two named rows on the master's own MATRÍCULA tab, verbatim: 'ESTUDIANTES NACIONALES Y COMUNITARIOS (80€/ECTS) — Primer curso - 60 ECTS — 4.800€' and 'ESTUDIANTES EXTRACOMUNITARIOS (120€/ECTS) — Primer curso - 60 ECTS — 7.200€'. That is a +50% non-EU surcharge (+40 EUR/ECTS, +2,400 EUR over the programme). Footnote verbatim: '* Precios vigentes para el curso 25/26, pendientes de aprobación por la Comunidad de Madrid para el curso 26/27'. A Tunisian citizen with a Spanish long-stay study authorisation is NOT a resident for fee purposes, so the 120 EUR/ECTS row applies.
- 300-ECTS recognition: NOT FOUND at programme level. The programme page publishes no advanced-standing or exemption scheme for a 300-ECTS entrant. UC3M does operate a general 'Normativa de reconocimiento de créditos' linked from the master's MATRÍCULA tab ( Reconocimiento de créditos), and it demonstrably recognises credits in the DOUBLE-master route (24 ECTS reconocidos when Big Data is combined with Telecomunicación, 30 with Ingeniería Informática), but NOTHING is published granting recognition for an over-length foreign first degree. The 300-ECTS question is therefore UNANSWERED by the primary source: it must be put to the master's comisión académica.
- Application window 2027: 2027-28 (Sept 2027 intake) calendar NOT YET PUBLISHED as of 2026-08-25. Published 2026-27 calendar (general masters, three rounds): 1 DICIEMBRE 2025 - 31 ENERO 2026 (resolutions from 27/02/2026); 1 FEBRERO 2026 - 31 MARZO 2026 (resolutions from 30/04/2026); 1 ABRIL 2026 - 31 MAYO 2026 (resolutions from 23/06/2026). Do not shift these forward.
- Verification: VERIFIED

6. Master in Robotics, Graphics and Computer Vision (RGCV) — Universidad de Zaragoza — Escuela de Ingeniería y Arquitectura (EINA)

Score 96.2/100 · Zaragoza · AA · máster universitario · ENGLISH. Verbatim from the official Unizar programme page: "El objetivo del máster es proporcionar una formación de investigación, innovación y desarrollo en los ámbitos de Robótica, Gráficos y Visión por Computador. La lengua de impartición es el inglés." Corroborated by the plan de estudios, whose subject titles are all in English, and by the TFM rule: "El resultado se plasma en una memoria en forma de artículo o informe, escrito en inglés".

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.85	25	21.2
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 5472.0 (2026-27 (DECRETO del Gobierno de Aragón de 24 de junio de 2026, BOA 29/06/2026; official Unizar price table 'Enseñanzas de Máster Universitario. Precios Públicos: Curso académico 2026-2027') rates) · non-EU surcharge: YES — CONFIRMED, EXACTLY DOUBLE, AND UNAVOIDABLE ON A STUDENT VISA. The Unizar 2026-27 master price table has a dedicated non-EU row: for EINA masters including 'Robótica, Gráficos y Visión por Computador/Robotics, Graphics and Computer Vision' the entry reads '30,40 / 60,80' — 30,40 EUR/ECTS for 'Españoles, residentes o ciudadanos UE 1ª matrícula' and 60,80 EUR/ECTS for 'Ciudadanos no UE / Non-EU citizens. Credit price 1st. Registration' (2nd enrolment 60,76 / 121,52). Crucially, Unizar states verbatim: "La condición de residente se acreditará mediante la tarjeta de Identificación de Extranjeros (TIE) donde se indique que el tipo de permiso es por RESIDENCIA. El permiso por ESTANCIA o permiso por ESTUDIOS no es válido para acreditar la condición de residente, a efectos del pago de los precios de matrícula." A Tunisian arriving on a student visa therefore pays the non-EU rate. Unizar does publish an 'AYUDAS DE MATRÍCULA para estudiantes extranjeros no residentes' call that can offset this.
- 300-ECTS recognition: NOT FOUND as an advanced-standing rule for a 300-ECTS degree. Unizar has a general 'Reconocimiento y Transferencia de créditos' regime (linked from academico.unizar.es). The programme does state that external internships can be credit-recognised: "El reconocimiento en créditos de la realización de prácticas externas esta limitado a un máximo de 9 ECTS y podrá realizarse en segmentos diferenciados de 3 ECTS."
- Application window 2027: 2027-28 dates NOT PUBLISHED. Unizar's published 2026-2027 master admission phases (verbatim): Fase 1 (except Máster en Profesorado) 'Presentación solicitudes: 2 al 23 de marzo de 2026', definitive lists 17 April 2026, payment 20-27 April 2026; Fase 2 'Presentación solicitudes: Del 11 al 26 de junio de 2026', definitive lists 17 July 2026; Fase 3 'Presentación solicitudes: del 24 al 31 de agosto de 2026', definitive lists 14 September 2026. Enrolment windows 22-24 July 2026 and 16-17 September 2026.
- Verification: VERIFIED

7. Master's degree in Machine Learning and Cybersecurity for Internet-Connected Systems — Universitat Politècnica de Catalunya (UPC) — Escola Politècnica Superior d'Enginyeria de Manresa (EPSEM)

Score 95.5/100 · Manresa (Barcelona province) · AA | AC · máster universitario · English — stated verbatim as the language on UPC's own catalogue page for the programme, fetched directly from upc.edu (not a translation of a Catalan page).

Component	Raw	Weight	Contribution
funding	0.95	40	38.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 4050 (2026-27 — inferred arithmetically: the EU figure of €1,743 is $19,37 \times 90 = 1,743,30$, and 19,37 EUR/credit is Decret 96/2026's price for a non-habilitante master in curso 2026-2027. The page prints no year, so this is an inference, flagged. rates) · non-EU surcharge: YES — explicit and quantified. UPC's catalogue page publishes "EU residents: €1,743 (approximately)" and "Non-EU residents: €4,050 (approximately)" for the same 90-ECTS master: 19,37 vs 45,00 EUR per credit, a surcharge of about 2.3x. Legal basis: Decret 96/2026 art. 1.5 authorises the consell social to set the non-EU non-resident price up to 100% of cost, and confirms a long-stay study authorisation «no equival a la condició de residents». The 90-ECTS length makes the surcharge bite harder here than on a 60-ECTS master.
- 300-ECTS recognition: NOT FOUND — no advanced-standing or reconocimiento de créditos provision for a 300-ECTS prior degree. What the admission structure does give the candidate is exemption from bridging courses, which is the practical equivalent of not being penalised for background — but it is not credit recognition and does not shorten the 90 ECTS.
- Application window 2027: 2027-28 dates NOT PUBLISHED as of 2026-08-25. The programme page states pre-enrolment is 'Currently closed' and directs candidates to an information-request form for future periods. For context only, and marked as 2026-27: an UPC school (EPSEB) advertises a general 2026-2027 preinscripción window of 18 February 2026 to 1 February 2027, but per-school calendars differ and that window is not confirmed for EPSEM. Preinscripción fee ~30,21 EUR. Dates NOT shifted forward.
- Verification: VERIFIED

8. Master in Data Science — CONJUNTO: Universidad Internacional Menéndez Pelayo (UIMP) + Universidad de Cantabria (UC); taught with CSIC / Instituto de Física de Cantabria involvement

Score 95.5/100 · Santander · AB | AA · máster universitario · Castellano (algún seminario podría darse en inglés)

Component	Raw	Weight	Contribution
funding	0.95	40	38.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	1.00	10	10.0
credit	1.00	10	10.0

- Tuition: 1581.0 (2026-27 rates) · non-EU surcharge: NO — and this was checked positively, not assumed. UIMP DOES operate differentiated non-EU pricing, but only for a NAMED SUBSET of its masters: its BOE price resolution (Resolución de 24 de marzo de 2025, BOE-A-2025-7584) tags certain titles 'Máster con precio diferenciado para los estudiantes extranjeros no residentes en el Espacio Europeo de Educación Superior (EEES)' and doubles the rate for them (e.g. the Economics and Finance master charges non-EEES students 110 EUR/credit vs 55 EUR/credit — exactly double). The tagged list comprises Economía y Finanzas, Plásticos y Caucho, Biodiversidad Tropical, Biología Sintética, Tecnologías Cuánticas and Liderazgo Público — CIENCIA

DE DATOS IS NOT AMONG THEM, and its own 2026-27 ficha shows a single 26.35 EUR/credit figure with no second rate. This is exactly the trap the brief warns about in reverse: the surcharge is real at this university but does not apply to this title, so quoting a doubled figure here would be wrong.

- 300-ECTS recognition: NOT FOUND as a reconocimiento-de-créditos rule, but the entry rule is credit-based (24 maths / 12 informatics), so a 300-ECTS software engineering degree should clear it comfortably and avoid complementos. That inference is the applicant-level consequence of the published rule, not a separate published exemption.
- Application window 2027: 2027-28 dates NOT YET PUBLISHED. Full 2026-27 calendar (marked 2026-27, NOT shifted forward), verbatim from the UIMP ficha for curso 2026-27 — note this intake starts 1 October 2026 and runs to 30 September 2027 (X Edición): ORDINARIO — preinscripción 'del 9 de marzo al 29 de mayo de 2026 (hasta las 23:59 hora peninsular española)'; lista provisional de admitidos 'hasta el 15 de junio de 2026'; reclamaciones 'en los dos días hábiles siguientes'; admisión definitiva 'al día siguiente de finalizar el periodo de reclamación'; matrícula 'A partir del 24 de junio de 2026, en los 10 días naturales a contar desde la recepción del correo electrónico'. EXTRAORDINARIO — preinscripción 'del 14 de julio al 11 de septiembre de 2026'; lista provisional 'hasta el 21 de septiembre de 2026'. No separate non-EU early round is published; a non-EU applicant needing a visa should target the ORDINARIO round, since the extraordinario closes only three weeks before teaching starts.
- Verification: VERIFIED

9. Máster Universitario en Ingeniería Acústica — Universidad Politécnica de Madrid (UPM)

Score 95.0/100 · Madrid — taught at E.T.S. de Ingeniería y Sistemas de Telecomunicación (ETSIST), Campus Sur, Ctra. Valencia Km.7, 28031 Madrid; coordination sits at ETSI Industriales, c/ José Gutiérrez Abascal 2, 28006 Madrid · C | A · máster universitario (OFFICIAL). RUCT 4315387. Estado: 'Publicado en B.O.E. (TITULACIÓN RENOVADA POR ACREDITACIÓN INSTITUCIONAL)'. Nivel académico: Máster - RD 1393/2007 (1); Nivel MECES 3; Rama: Ingeniería y Arquitectura; Campo: Interdisciplinar. Fecha de verificación 03/08/2015; BOE 24/12/2015 and 16/11/2022; accreditations: Resolución Favorable Acreditacion Institucional 26/05/2025 and 10/09/2024, Resolución Favorable para la Renov. de la Acreditación 17/12/2019. NOTE: RUCT's 'Centros en los que se imparte' field returns '3 registros encontrados' — this is a multi-school title (the UPM catalogue names Sistemas de Telecomunicación, Industriales and Edificación, plus CSIC researchers on the teaching staff). UPM catalogue for curso 2026-27 labels it 'Título Oficial'. Not a título propio. · Español (Spanish) — per the official UPM catalogue entry. SEE conflicts: a search-engine summary asserted Spanish+English; that could NOT be confirmed on any primary page.

Component	Raw	Weight	Contribution
funding	0.95	40	38.0
field_fit	1.00	25	25.0
official	1.00	15	15.0
language	0.70	10	7.0
credit	1.00	10	10.0

- Tuition: 5044.2 (Rates in force at access date 2026-08-25 under DECRETO 43/2022 de la Comunidad de Madrid; UPM's table carries no curso stamp, and the linked UPM 'NORMATIVA DE MATRICULACIÓN CURSO 2026-2027' was approved 25 June 2026, so these are the 2026-27 figures. 2027-28 rates NOT PUBLISHED. rates) · non-EU surcharge: YES — explicit, published by UPM itself as a named column, and legally grounded. UPM's 'Precios públicos para Másteres Oficiales' page prints a two-column table headed verbatim 'Máster Universitario | Estudiantes españoles y de la Unión Europea | Estudiantes Extracomunitarios

()', where () is defined verbatim as 'ESTUDIANTES EXTRANJEROS, mayores de dieciocho años que no tengan la condición de residentes, excluidos los nacionales de Estados miembros de la Unión Europea, y aquellos a quienes sea de aplicación el régimen comunitario'. THE MECHANISM (from UPM's own PDF, <https://www.upm.es/gsf/sfs04229>), verbatim: 'El DECRETO 43/2022 también establece el importe de los precios públicos por crédito para ESTUDIANTES EXTRANJEROS ... a) En el caso de másteres del ANEXO I: los precios de cuarta matrícula, b) y para el resto de estudios de máster oficial (ANEXO II), lo previsto para la tercera y sucesivas matrículas.' — i.e. a non-EU non-resident is charged the RESALE/repeat-enrolment rate from day one. THE RATES (Decreto 43/2022, Comunidad de Madrid, in force at access date): ANEXO I / habilitantes and Ingeniería Informática — 19,43 €/crédito EU vs 154,80 €/crédito extracomunitario (60 ECTS: 1.165,80 € vs 9.288 €). RESTO DE MÁSTERES (ANEXO II) — 45,02 €/crédito EU vs 84,07 €/crédito extracomunitario (60 ECTS: 2.701,20 € vs 5.044,20 €). Dobles másteres containing an Anexo I programme — 32,23 € vs 119,44 €. THIS MASTER IS ANEXO II ('resto de másteres'): it is NOT named in the Anexo I list, so the rate is 84,07 €/crédito, +86.7% over the EU rate. THE RESIDENCY TRAP IS CLOSED EXPLICITLY: 'A estos efectos, la autorización de estancia concedida a los estudiantes extranjeros de acuerdo con el Real Decreto 557/2011 ... no equivaldrá a la condición de residentes' (SFS04229 PDF); the current web version cites the successor 'Real Decreto 1155/2024, de 19 de noviembre'. A Tunisian citizen on a Spanish study authorisation therefore CANNOT escape the surcharge by living in Madrid.

- 300-ECTS recognition: NOT FOUND for a 300-ECTS entrant, and the pressure runs the OTHER WAY here — a long prior degree does not shorten this master, it is the ABSENCE of acoustics and signal-processing content that lengthens it by 12 ECTS. The one lever the published rules give is the phrase 'sin conocimientos previos de Acústica y Procesado de Señal' attached to every complementos row: the allocation is conditioned on prior knowledge, not just on degree title, and the Comisión Académica sets conditions 'en función de la formación y experiencia previa de los solicitantes'. A Software Engineering graduate with documented DSP coursework — and this candidate is a working music producer, which is directly on point — could argue for exemption from at least 'Procesado Digital de Señal CF' (3 ECTS). That is an argument the published text supports, NOT a published entitlement. UPM's general 'Reconocimiento de Créditos' machinery exists university-wide, but no programme-specific advanced-standing scheme is published here. Note the non-EU document list demands 'el número total de horas cursadas ... diferenciando entre horas lectivas y horas prácticas' and calls it 'imprescindible' — that hours breakdown is exactly the evidence a 300-ECTS / 5-year degree would use, so it is worth preparing carefully.
- Application window 2027: 2027-28 (Sept 2027 intake) calendar NOT PUBLISHED as of 2026-08-25. Programme states pre-registration runs online 'aproximadamente de febrero a julio', with admission lists published three times a year (mid-March, May, July) 'hasta completar las 25 plazas ofertadas', and enrolment in person at ETSIS Telecomunicación July–September. Central UPM calendar for curso 2026-27: rounds 26 Jan–12 Mar 2026, 13 Mar–12 May 2026, 13 May–1 Jul 2026, extraordinary 31 Aug–4 Sep 2026. Dates NOT shifted forward. Note: places are filled progressively 'hasta completar las 25 plazas', so applying in the first round matters.
- Verification: VERIFIED

10. Master in Deep Learning for Audio and Visual Artificial Intelligence — Universidad Autónoma de Madrid (UAM) — Escuela Politécnica Superior

Score 95.0/100 · Madrid · A | B | AA · máster universitario · "Inglés" (English) — stated as the idioma de impartición on UAM's own programme page, alongside a requirement for "knowledge of the English language at the minimum level of the B2 certificate". The Spanish-language field value «Inglés» is what settles it, not the fact that an English version of the page exists.

Component	Raw	Weight	Contribution
funding	0.95	40	38.0
field_fit	1.00	25	25.0
official	1.00	15	15.0
language	0.70	10	7.0
credit	1.00	10	10.0

- Tuition: 5079 (As displayed on the UAM programme page on 2026-08-25. The page prints the two figures without an academic year; UAM's *tasas-y-precios* page is headed 2025-2026 and cites Decreto 43/2022 (BOCM 01/07/2022) as the standing legal basis. Treat as current-as-displayed and re-check for 2027-28. FLAGGED. rates) · non-EU surcharge: YES — explicit, quantified, and published on the programme page itself: "Standard enrollment: €2,736" versus "Non-EU residents: €5,079" for the same 60-ECTS master, i.e. a surcharge of €2,343 (1.86x). Mechanism, from UAM's own *tasas* page: students from non-EU countries without official residency in Spain pay at the "tercera matrícula" (third-enrolment) rate, or the "cuarta" rate for másteres habilitantes, as established in the Comunidad de Madrid public-prices decree (Decreto 43/2022, BOCM 01/07/2022). This is a repricing to a penalty tier, not a flat uplift. Note it is charged on non-RESIDENCE, so the candidate cannot avoid it by relocating.
- 300-ECTS recognition: YES — A REAL, INSTITUTION-WIDE MECHANISM, and the best-documented one in this batch. UAM's official 2026-27 admission process document states that the Comisión Académica «determinará si debe cursar complementos de formación y si existe posibilidad de solicitar reconocimiento de créditos por los estudios previos realizados», and that «Se podrá señalar el número de créditos de los que el estudiante pueda solicitar reconocimiento (si tiene formación previa reconocible). Posteriormente a su matrícula el estudiante solicitará formalmente el reconocimiento en la Administración del Centro ... pero esta indicación le servirá para saber de cuántos créditos debe matricularse y cuantos no serán necesarios, porque puedan reconocerse.» So recognition is assessed AT ADMISSION and reduces the credits actually enrolled and paid for. IMPORTANT COUNTERWEIGHT from the same document: «La titulación de acceso al Máster que se considerará es siempre la de grado o equivalente. Cualquier otra titulación académica que posea el solicitante podrá incorporarse a la solicitud de forma complementaria y, en su caso, ser valorada por la coordinación del Máster como otros méritos» — extra qualifications count as merit, not as automatic advanced standing. Whether a 300-ECTS single degree yields recognised credits is a coordinator's decision. No figure is promised.
- Application window 2027: NOT PUBLISHED for the September 2027 (curso 2027-28) intake. For curso 2026-2027 UAM published, verbatim: PRIMERO «De 4 de febrero a 8 de abril de 2026 (Para todos los estudiantes, aunque no hayan finalizado estudios de acceso)»; SEGUNDO «De 18 de junio a 1 de septiembre de 2026 (Solo si hay vacantes del primer plazo en Másteres sin Listas de Espera)», with the second round possibly brought forward to 4 June for masters that have not filled. Resolution deadlines: 1º plazo 27 May 2026, 2º plazo 8 September 2026; all applications validated by the CEP by 14 May 2026. These are 2026-27 dates and are NOT shifted forward a year.
- Verification: CONFLICT

11. Máster Universitario en Sistemas Interactivos Inteligentes — Universidad Autónoma de Madrid (UAM) — Escuela Politécnica Superior

Score 95.0/100 · Madrid · AA | B · máster universitario · "Español" — the idioma de impartición on UAM's own programme page, shown as Español even on the English version of the page. HARD LANGUAGE FILTER for this candidate (Spanish A0/A1 now).

Component	Raw	Weight	Contribution
funding	0.95	40	38.0
field_fit	1.00	25	25.0
official	1.00	15	15.0
language	0.70	10	7.0
credit	1.00	10	10.0

- Tuition: 5079 (As displayed on the UAM programme page on 2026-08-25; no academic year printed. UAM's tasas-y-precios page is headed 2025-2026 and cites Decreto 43/2022 (BOCM 01/07/2022). FLAGGED — re-check for 2027-28. rates) · non-EU surcharge: YES — explicit and quantified: "€2,736 (standard)" versus "€5,079 (non-EU residents)" for first enrolment on the same 60-ECTS master, a surcharge of €2,343 (1.86x). Mechanism per UAM's tasas page: non-EU students without official Spanish residency pay at the tercera-matrícula rate under Decreto 43/2022 (BOCM 01/07/2022). Charged on non-RESIDENCE.
- 300-ECTS recognition: YES — the UAM institution-wide mechanism applies: the Comisión Académica «determinará si debe cursar complementos de formación y si existe posibilidad de solicitar reconocimiento de créditos por los estudios previos realizados», and may indicate the number of credits the student can have recognised so they know «de cuántos créditos debe matricularse y cuantos no serán necesarios». Assessed at admission, reduces credits enrolled and paid. Counterweight from the same document: the access qualification considered «es siempre la de grado o equivalente»; any further qualification counts as merit only. No quantity promised.
- Application window 2027: NOT PUBLISHED for the September 2027 (curso 2027-28) intake. UAM's published curso 2026-2027 calendar: PRIMER PLAZO 4 February – 8 April 2026 (resolution by 27 May 2026); SEGUNDO PLAZO 18 June – 1 September 2026, possibly opening early on 4 June (resolution by 8 September 2026). Recorded as 2026-27 dates, NOT shifted forward.
- Verification: CONFLICT

12. UC3M - Doble Máster en Ingeniería de Telecomunicación y Métodos Analíticos para Datos Masivos: Big Data — Universidad Carlos III de Madrid (UC3M)

Score 94.5/100 · Madrid — TWO campuses: 'Campus Madrid - Puerta de Toledo , Leganés' · AB | C | AC · máster universitario (OFFICIAL) — but as a STACK OF TWO official titles, not as a title of its own. This double is NOT a separate RUCT entry. It combines: (a) Máster Universitario en Métodos Analíticos para Datos Masivos: Big Data, RUCT 4315583, 'Publicado en B.O.E. (TITULACIÓN RENOVADA)'; and (b) Máster Universitario en Ingeniería de Telecomunicación (UC3M), a regulated-profession master whose own RUCT code was NOT verified in this pass — recorded as NOT FOUND rather than guessed. The page states the outcome verbatim: 'La superación de los créditos de ambos planes de estudio junto con el reconocimiento de 24 ECTS te permitirán obtener, en poco más de año y medio, dos titulaciones de máster oficial' and 'al finalizar obtendrás dos títulos de Máster Oficial'. So both awards are official; the combination itself is an administrative route. · Español, inglés (Spanish AND English) — BILINGUAL, and this is a hard filter for this candidate

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	0.70	10	7.0

Component	Raw	Weight	Contribution
credit	1.00	10	10.0

- Tuition: 17312.4 (2025-26 (curso 25/26, explicitly provisional for 2026-27; 2027-28 NOT PUBLISHED) rates) · non-EU surcharge: YES — the largest surcharge in this batch, and it is a DIFFERENT rate pair from either constituent master. Verbatim from the MATRÍCULA tab: 'DOBLE MÁSTER EN INGENIERÍA de Telecomunicación Y Métodos Analíticos para Datos Masivos: Big Data — Reserva de plaza 900 € — Precio Estudiantes UE 49,71 € / ECTS — Precio Estudiantes no UE 137,40 € / ECTS — Créditos que se matriculan 126 ECTS — Créditos que se reconocen (sin coste) Ingeniería de Telecomunicación 18 ECTS — Créditos que se reconocen (sin coste) Big Data 6 ECTS'. That is a 2.76x multiplier (+87,69 EUR/ECTS, +11,048.94 EUR over the programme), far above the +50% on the standalone Big Data master. Footnote verbatim: '* Precios vigentes para el curso 25/26, pendientes de aprobación por la Comunidad de Madrid para el curso 26/27'. A Tunisian citizen holding only a Spanish long-stay study authorisation is 'no UE' for this row.
- 300-ECTS recognition: YES, but only the built-in double-degree recognition, NOT recognition for a 300-ECTS entrant. Verbatim: 'Se te reconocerán 24 créditos ECTS, y al finalizar obtendrás dos títulos de Máster Oficial' and the fee table breaks it down: 'Créditos que se reconocen (sin coste) Ingeniería de Telecomunicación 18 ECTS' + 'Big Data 6 ECTS' = 24 ECTS, free of charge, reducing 150 nominal ECTS to 126 enrolled. Also: 'La admisión y matriculación en el Doble Máster, permitirá la exención de los créditos ECTS que se reconozcan según la planificación de los estudios.' NOTHING is published about advanced standing for an over-length prior degree — the 300-ECTS question is NOT FOUND here.
- Application window 2027: 2027-28 (Sept 2027 intake) calendar NOT YET PUBLISHED as of 2026-08-25. This programme follows UC3M's SEPARATE calendar for 'másteres de profesión regulada (Escuela de Ingeniería)' plus the dobles másteres track, not the general three-round calendar; the published 2026-27 general rounds are 1 DIC 2025 - 31 ENE 2026, 1 FEB - 31 MAR 2026, 1 ABR - 31 MAY 2026. Programme page currently reads 'CERRADO'. Exact 2026-27 dates for the regulated-profession/doble-máster track: NOT FOUND on the fetched page.
- Verification: VERIFIED

13. Master in Data Analytics for Business — Universitat Pompeu Fabra — UPF Barcelona School of Management (UPF-BSM)

Score 94.5/100 · Barcelona · X | AB · máster universitario · Spanish. "Language: Spanish" is stated verbatim in the fact bar of UPF-BSM's own ENGLISH-language programme page, so brief rule 7 is satisfied: the page itself declares Spanish and the English page title is not evidence of English instruction. THIS IS A HARD FILTER for this candidate (Spanish A0/A1 now, B1-B2 possible by Sept 2027) — a Spanish-taught master is in scope but flagged.

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	0.70	10	7.0
credit	1.00	10	10.0

- Tuition: 16000 (2027-28 edition — the €16,000 figure is published in the same fact bar as "Next edition — Classes start: 27 September, 2027", i.e. exactly this candidate's target intake. rates) · non-EU surcharge: NO SURCHARGE FOUND — neither the programme page nor UPF-BSM's future-student/fees page draws any residency or nationality distinction; UPF-BSM sets a single school tuition for the programme. IMPORTANT:

this is why this programme escapes the Catalan non-EU problem — the Catalan precios públicos decree governs per-credit public tariffs, and UPF-BSM prices this official title itself at a flat rate instead. Caveat: the small 'diploma fees' that follow 'Catalonia's Official Gazette rates' are separate and were not quantified on the page.

- 300-ECTS recognition: NOT FOUND — no reconocimiento de créditos or advanced-standing statement for a 300-ECTS entrant. The only credit-recognition mechanism published is that curricular internships are validated as 6 ECTS, which is not advanced standing.
- Application window 2027: START DATE CONFIRMED for the target intake: classes start 27 September 2027. The exact application rounds for that intake are NOT FOUND — UPF-BSM runs admission rounds with per-round deadlines and maximum resolution dates, but those dates were not visible on the pages fetched (the "Admission and enrolment" tab is rendered client-side and /admission, /admissions, /admission-process and /admission-enrolment all return HTTP 404). NEEDS A HUMAN TO OPEN THE TAB IN A NORMAL BROWSER.
- Verification: CONFLICT

14. Master's Degree in Big Data Analytics — Universidad Europea de Madrid

Score 94.5/100 · Alcobendas (Madrid) - campus Villaviciosa de Odón/Alcobendas; the same title is also offered online and, per the page, in Málaga and Valencia · AB | X · máster universitario · «Clases en Español o en Inglés» - stated on the Spanish-language programme page (English page: «Classes in English or Spanish»), so it is not a translation artefact. WHICH cohort actually runs in English, and whether an all-English route exists for a given intake, is NOT stated - NOT FOUND. Do not treat this as a confirmed English-taught master until the admissions team confirms the English group runs.

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	0.70	10	7.0
credit	1.00	10	10.0

- Tuition: EUR 12,700.00 total for the Spanish-taught PRESENCIAL Madrid track (reserva de plaza 1.200,00 EUR + docencia 11.500,00 EUR = 12.700,00 EUR), or EUR 13,600.00 for the ENGLISH-taught presencial track (1.200,00 + 12.400,00). Listed in the tariff as "Master's Degree in Big Data Analytics" and "Master's Degree in Big Data Analytics (EN)". The ONLINE modality's price is NOT FOUND — UEM's financial-information page publishes only face-to-face Madrid / Valencia / Málaga postgraduate tariffs, with no online tariff. (2026-27 — the document is titled "Postgraduate Fees / 2026 Prices" and is linked from UEM's financial-information page as "Academic Fees for Postgraduate Degrees Academic Year 2026-2027 face to face Madrid". rates) · non-EU surcharge: No separate non-EU price is published. The full 2026-27 postgraduate tariff lists exactly one total per programme and contains no international/extracomunitario/non-resident row anywhere. Being a private university, UEM sets one price for everyone. Recorded honestly: the tariff is comprehensive and shows no surcharge, but UEM does not make an explicit nationality statement, so this is "none published" rather than an explicit institutional "no".
- 300-ECTS recognition: NOT FOUND - no statement on reconocimiento de créditos or advanced standing for a 300-ECTS first degree on either the Spanish or English programme page.
- Application window 2027: NOT FOUND for the September/October 2027 intake. What IS published: «Inicio: octubre 2026» for the Madrid presencial and online intakes (2026-27). Universidad Europea runs rolling admissions with no published open/close dates - admission is triggered by contacting the admissions team,

sitting the entrance exam and reserving a place, so there is no calendar to quote. Note the intake month is OCTOBER, not September.

- Verification: VERIFIED

15. Erasmus Mundus Master in Linguistic Data Science (EMLDS / CLiDS) — CONSORTIUM (Erasmus Mundus Joint Master). Spanish partner and RUCT registrant: Universidad de Zaragoza (Escuela de Ingeniería y Arquitectura). Full consortium as registered in RUCT: Universidad de Zaragoza; National University of Ireland, Galway / Ollscoil na hÉireann, Gaillimh (Ireland); Universidade Nova de Lisboa (Portugal); Università Cattolica del Sacro Cuore - Milano (Italy).

Score 94.5/100 · Mobility across Lisbon or Milan (S1), Zaragoza (S2 and S3), student's choice (S4) · AB | AA · máster universitario (Erasmus Mundus Joint Master — joint degree) · ENGLISH. Verbatim from the consortium site: "120 ECTS, English-taught master's programme leading to a Joint Degree".

Component	Raw	Weight	Contribution
funding	1.00	40	40.0
field_fit	0.90	25	22.5
official	1.00	15	15.0
language	1.00	10	10.0
credit	0.70	10	7.0

- Tuition: 18000 (Rate quoted on the consortium's Costs and Funding page as at 2026-08-25, for the full four-semester study period; the page does not label it by cohort year, and the currently advertised cohort is 2027-2029. rates) · non-EU surcharge: no — the Costs and Funding page publishes one figure (EUR 18,000) with no Programme Country / Partner Country distinction. This is an EMJM consortium fee, not a Spanish public-price decree, so the Aragón decreto de precios públicos does not apply.
- 300-ECTS recognition: NOT FOUND. Joint-degree EMJM curricula are fixed by the consortium agreement and mobility scheme; no advanced-standing or credit-recognition provision is published, and none should be assumed.
- Application window 2027: A 2027-2029 COHORT IS ANNOUNCED, DATES NOT YET RELEASED. The consortium's Applications Timeline page lists, for the 2027-2029 cohort: "Call Opening: Date to be announced", "Call Closure: Date to be announced", "Interviews: If and when requested by the Joint Admissions Committee", "Final Results: Date to be announced", "Final Acceptance by Students: Date to be announced". The timeline is stated for "EMJM Scholarship and Non-Scholarship Holders" together, i.e. a single unified deadline rather than separate scholarship and self-funded tracks. THIS PAGE MUST BE RE-CHECKED — EMJM calls typically open in the autumn preceding the intake (i.e. late 2026) and close in the winter/early spring.
- Verification: CONFLICT
