

Program Dossiers

One page per shortlisted programme, on a fixed template so the eye learns where things live: does he qualify → facts → funding → what else was recorded → flags → sources. Every field held in `master_programs.csv` for that programme appears on its page.

Selected from the 106 programmes that pass the viability gate — a real master's degree, admitting for September 2027, able to support a Tunisian student visa, and not closed to him on entry requirements. Ordered by the weighted score; the named strategic picks are guaranteed a page regardless of rank.

On length: the template is one page, but completeness outranks it — every field recorded for a programme is printed, and the densest rows (ESMT carries 11,000 characters of verified notes) run onto a second page rather than being truncated. Page numbers are stamped on every page.

Audiokommunikation und -technologie M.Sc. (Audio Communication and Technology)

Technische Universitaet Berlin - Fachgebiet Audiokommunikation (Audio Communication Group)

Do I qualify?

YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	German (main language of instruction); English B2 also requi	He accepts any language of instruction. German is disprefered, not excluded.
English evidence	English B2 (CEFR) - required in addition to German C1, becau	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Verbatim from the official page: 'The formal admission requirement for the Audio Communication and Technology Master's programme is a first university degree in a science, ENGINEERING, humanities, social science, arts, business or law programme, or an equivalent teaching degree. In addition, you must demonstrate knowledge of higher mathematics (analysis, linear algebra) at the level of the basic lectures of a science or engineering degree (AT LEAST 10 LP) and knowledge of a PROGRAMMING LANGUAGE or a computer algebra system through course components in the previous degree or through evidence acquired outside a university, such as an online course with a personal certificate.' Language: 'The main language of instruction in the Master's programme is German. If you are applying with foreign qualifications, you will therefore have to prove German skills at level C1 for admission... you must be able to demonstrate English language skills at level B2.' Winter-semester start only. If the maths certificates are missing, TU Berlin runs an 'Early-Bird Course' in August-September immediately before the winter semester, examined at the end of September so the result arrives in time for enrolment.

Facts

Degree awarded	Master of Science (M.Sc.)	Institution type	Public technical university
City	Berlin	Country	Germany
Mobility	single_site		
Language	German (main language of instruction); English B2 also required as much course literature and some courses are in English		
Duration (months)	24	ECTS	120
Tuition, non-EU / yr	0		
Tuition notes	No tuition fees at TU Berlin, for EU and non-EU students alike - the programme page lists no fee. A compulsory semester contribution (Semesterbeitrag: social contribution to the Studierendenwerk plus the Berlin public-transport ticket) applies; the amount is not published on the programme page and TU Berlin's fees page could not be located this session (two URL attempts returned 404), so the semester-fee amount remains TBC. It is a contribution, not tuition.		
2027 intake confirmed	TBC - winter semester start (September/October)		
Applications open	01 April (international/foreign-qualification applicants, German-language restricted-admission masters)		
Deadline	15 June (01.04.2026-15.06.2026 published for winter semester 2026/27); VPD from uni-assist also required		
Which cycle	2026 cycle - 2027 TBC		
English required	English B2 (CEFR) - required in addition to German C1, because 'much of the course literature and some of the courses are taught in English'		
Paths served	A,C,G,H,R		

Admissions: <https://www.tu.berlin/en/studierendensekretariat/dates-deadlines-for-application-and-enrollment-at-tu-berlin>

Funding

Coverage level	none_found	Scholarship available	TBC - none programme-attached found
Tunisian eligible	TBC		
TBC - no programme scholarship published; DAAD Study Scholarships and Deutschlandstipendium are external and were not verified on official pages this session			

How to stand out here

Lead with the engineering, not the enthusiasm. A committee here sees musicians who cannot code far more often than the reverse — a working DSP or MIR project, with the code readable, is worth more than a finished track. Name the group or lab you want to work with in the motivation letter; on this path that single sentence separates real applicants from browsers.

Also recorded

intake 2027 confirmed	TBC - winter semester start (September/October)	portfolio or audition required	no
scholarship available	TBC - none programme-attached found		
scholarship names	TBC - no programme scholarship published; DAAD Study Scholarships and Deutschlandstipendium are external and were not verified on official pages this session		
tunisia eligible	TBC		
fit notes	EUROPE'S LEADING SPATIAL-AUDIO GROUP AND EFFECTIVELY FREE. FULL DEGREE. Explicit spatial-audio component: virtual acoustics and 3D audio technologies are named research and teaching fields; facilities include a 192-channel wave field synthesis system, a 3D Media Lab, an anechoic chamber, and a wave field synthesis demonstration room with 832 channels and 2700 speakers. W3-2: THE BEST CREDENTIAL FIT IN THE ENTIRE SLICE. The admission text names ENGINEERING first among accepted first degrees, then asks for exactly two things the client already has - higher mathematics at engineering basic-lecture level (at least 10 LP) and knowledge of a programming language. A 300-ECTS software-engineering diploma satisfies all three clauses outright, and if any maths certificate is missing TU Berlin itself runs the Early-Bird catch-up course in August-September. Combined with zero tuition, this is the single strongest funding-plus-fit combination on Path A. The whole decision reduces to one question: can the client reach German C1 by the 2027 application window? If yes, apply. If not, this row and A-012 both fall, and that is the largest single loss in the Berlin coverage.		

Flags

GERMAN-TAUGHT, and the German bar is C1 for applicants with foreign qualifications - the highest language bar on this path. Client has no German. Tagged, never dropped per brief. No programme-attached funding found. || W3-2 2026-08-22: admission text re-read verbatim on the official TU Berlin page and confirmed. Note a small inconsistency between TU Berlin's own pages: this programme page states GERMAN C1 for foreign qualifications, while the Audio Communication and Sonology double-degree page states 'German at least on level TDN 4 / TestDaF' (TDN 4 maps to roughly B2/C1). Plan for C1 - it is the stricter and the programme-level statement. || The semester contribution amount is still unverified: TU Berlin's fees page could not be reached (404 on both URLs tried). It is small relative to any tuition figure in this sheet but it is not zero. || No programme-attached scholarship exists; DAAD and Deutschlandstipendium remain unverified external routes.

Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Andalusian Distrito Unico Andaluz (DUA) single application: one form covers all 9 public Andalusian universities, ranking up to 6 masters by preference. Non-EHEA degrees need NO homologacion - DUA states VERBATIM: 'sin necesidad de homologacion del titulo, pero si de comprobacion por parte de la universidad del nivel de formacion que implican, siempre y cuando en el pais donde se haya expedido dicho título permita acceder a estudios del nivel de posgrado'. Requires DUA Anexo II 'Modelo de certificacion de acceso a estudios de masteres oficiales en el pais de origen' from the home university. DUA access list for this master runs to 118 named degrees and EXPLICITLY includes GRADO EN INGENIERIA INFORMATICA, INGENIERO EN INFORMATICA, GRADO EN INGENIERIA INFORMATICA - INGENIERIA SOFTWARE, GRADO EN INGENIERIA SOFTWARE, GRADO EN INGENIERIA DEL SOFTWARE Y VIDEOJUEGOS, plus every Telecomunicacion and Sonido e Imagen variant. Ranking baremo: academic record, prior training, professional experience. Spanish B2 (CEFR) required of foreign applicants - stated on the DUA ficha. This is the real barrier, not money.

Facts

Degree awarded	Master Universitario (official title, RUCT-registered - titulo oficial)	Institution type	Public university
City	Malaga	Country	Spain
Mobility	single_site	Language	Spanish
Duration (months)	12	ECTS	60
Tuition, non-EU / yr	820.80		
Tuition notes	Master NO habilitante, Grupo 3 (Ingenierias y Arquitectura), 1a matricula = 13,68 EUR/credit. ARITHMETIC: 13,68 x 60 ECTS = 820.80 EUR total. Add one-off admin fees: apertura de expediente 59,10 + tarjeta identidad 5,70 = 64,80. Master title issue 176,00 on graduation. UMA IS THE ONE EXCEPTION that publishes an art.3.2 clause: its master fee annex applies the tariffs 'con caracter provisional a los estudiantes de nacionalidad extranjera ... que no tengan la condicion de residente -temporal o de larga duracion- en Espana O LA AUTORIZACION DE ESTANCIA POR ESTUDIOS', with a complementary charge of up to 100% of real cost if proof is not filed by 1 November. CRUCIALLY - and unlike Madrid Decreto 43/2022 art.8, where a student-stay permit does NOT count as residence - the student-stay authorisation EXPLICITLY COUNTS at UMA. A Tunisian on a Spanish student visa satisfies it and pays the standard rate; the only real risk is missing the 1 November document deadline. NO non-EU surcharge applies. Andalusian Decreto 98/2023 (BOJA 84, 05/05/2023) Anexo I apdo.1. Column heading verbatim: 'Precio segun la vez de matricula / 1.a 2.a 3.a 4.a y ss.' - bands are keyed ONLY to enrolment attempt and experimentality group; NO column is keyed to nationality or residence. Art.3.1-3.2 is the only nationality article: non-EEA/Swiss students pay 'los precios previstos en este decreto'; art.3.2 merely PERMITS a university to vary the credit price for NON-RESIDENT foreigners (cap 100% of cost of service). Decreto 142/2025 (BOJA 172, 08/09/2025) amends only arts.5/6/12/14/DF1 and Anexo I apdo.2 (administrative fees) - it leaves art.3 and the per-credit table untouched, so these rates stand for 2026/27.		
2027 intake confirmed	2026/27 cycle confirmed on DUA (start 01/10/2026, end 30/09/2027); 2027/28 TBC		
Applications open	13 January (Fase 1, reserved exclusively for applicants with foreign qualifications; 2026/27 cycle ran 13-29 Jan 2026)		
Deadline	29 January (Fase 1 non-EU deadline); Fase 2 ordinaria 17-26 June; Fase 3 extraordinaria later		
Which cycle	2026 cycle - 2027 TBC	English required	None stated; Spanish B2 required instead
Paths served	A,H,R		

Admissions: https://www.juntadeandalucia.es/economiaconocimientoempresasyuniversidad/sguit/?q=masteres&d=mo_catalogo_top.php

tunisia eligible	TBC		
fit notes	STRONGEST FIND OF THIS SWEEP. Acoustics taught inside a TELECOMMUNICATIONS engineering school - so the signal-processing/electroacoustics framing the client wants, not the civil-engineering framing UGR and UCA use. It is the ONLY acoustics master in Andalusia whose access list names Ingenieria Informatica explicitly, which is the strongest possible admissions signal for this client. RUCT 4312714, 60 ECTS, 1 year. Client's 300-ECTS 5-year diploma vastly exceeds any entry bar. Total tuition ~821 EUR + ~65 EUR admin.		

Flags

Semi-presencial (blended) delivery, not fully on-campus - check residence/visa implications for a student visa that normally assumes in-person study. Only 25 places. Taught in Spanish. UMA's non-resident document deadline of 1 November must not be missed or a top-up of up to 100% of real cost can be levied. Scholarships not investigated in this fee-focused sweep. || W3 resolved the W1 flag: uma.es pages WERE opened this session and the programme is confirmed live (Implantado completo, 60 ECTS, Spanish, 25 places). Remaining risks: (1) SEMI-PRESENCIAL (blended) delivery - Spanish student-visa rules for non-EU nationals normally require full-time on-site study, so confirm with the UMA International Office that a blended master supports a type-D student visa before committing; (2) the foreign-qualification admission phase (Fase 1) closes in JANUARY, roughly eight months before the September start - miss it and the client competes in the ordinary June phase with no reserved places; (3) non-EU applicants must file proof of residency or estancia-por-estudios authorisation by 1 November or UMA may re-bill up to 100% of the real cost of tuition (Anexo C footnote); (4) scholarship position unverified - UMA becas pages reset the connection.

Innovation Management, Entrepreneurship and Sustainability (IMES), M.Sc.

Technische Universitaet Berlin

Do I qualify?

YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	English at "C1 level of the Common European Framework of Ref	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Verbatim: "First university degree in the fields of economics (this includes business administration), social sciences, ENGINEERING SCIENCES, natural sciences or any related study program." Plus English at CEFR C1. Restricted admission, 50 study seats. Selection is by a RANKING LIST weighing the final grade of the previous degree PLUS up to 100 points awarded as: economics courses (20 points); methodology/logic courses, minimum 5 ECTS (20 points); ecological and social sustainability, minimum 5 ECTS (20 points); mathematics, minimum 5 ECTS (20 points); statistics, minimum 5 ECTS (20 points). None of these subject credits is a hard admission requirement - they are ranking points only. 120 ECTS (minimum 90 in modules, 30 in thesis) over 4 semesters. Year 1 at TU Berlin (60 ECTS); year 2 abroad or flexible - study abroad is obligatory only for holders of a German bachelor.

Facts

Degree awarded	Master of Science (double-degree option)	Institution type	Public research university
City	Berlin	Country	Germany
Mobility	single_site	Language	English
Duration (months)	24	ECTS	120
Tuition, non-EU / yr	0		
Tuition notes	No tuition fees for any nationality (Berlin public university). Official programme page: "Semester fees of approx. 360 EUR" per semester = approx. EUR 720/year, approx. EUR 1,440 over the 4-semester degree. WARNING carried on the same page: "additional tuition fees are charged at the University of Twente" - if the client takes the year-2 double-degree option at Twente, Dutch non-EU institutional fees apply on top for that year, which would cost far more than the whole Berlin degree. Study abroad is "Obligatory for students with German Bachelor's / optional for rest" - as a non-German-bachelor holder the client can OPT OUT and keep the degree free.		
2027 intake confirmed	TBC - deadlines published for winter semester 2026/2027; the programme is ongoing with a winter-semester-only intake (October start)		
Applications open	1 April (2026-cycle date: 01.04.2026 for winter semester 2026/2027)		
Deadline	15 May (2026-cycle date: 01.04.2026 - 15.05.2026, the TU Berlin window for ENGLISH-language master's programmes with restricted admission). TU Berlin states explicitly: "Applications with international academic credentials have the same deadlines as non-international applications" - so a Tunisian applicant gets no extra time, and no earlier deadline either.		
Which cycle	2026 cycle - 2027 TBC. Window 01.04.2026 - 15.05.2026 confirmed on the official TU Berlin dates-and-deadlines page for winter semester 2026/2027; expect roughly 1 April - 15 May 2027 for an October 2027 start.		
English required	English at "C1 level of the Common European Framework of Reference for Languages". No specific IELTS/TOEFL score is published on the pages opened - IELTS 7.0 / TOEFL iBT 95+ is the usual C1 equivalent, but TU Berlin does not state a number here, so the exact accepted certificates must be checked with the Studierendensekretariat.		
Paths served	N		

Admissions: <https://www.tu.berlin/en/studying/study-programs/all-programs-offered/study-course/innovation-management-entrepreneurship-and-sustainability-m-sc>

Funding

Coverage level	none_found	Scholarship available	not needed for tuition (there is none) - no TU Berlin scholarship verified this session
Tunisian eligible	not applicable to tuition - the programme is free to all nationalities, and TU Berlin applies identical application deadlines to international and domestic credentials. Living-cost funding unverified.		

None verified on any page opened this session. DAAD remains the likely living-cost route but was NOT confirmed.

How to stand out here

Make the dual profile a thesis proposal rather than a biography: one sentence on the problem, one on why your engineering makes you the person to solve it.

Also recorded

intake 2027 confirmed	TBC - deadlines published for winter semester 2026/2027; the programme is ongoing with a winter-semester-only intake (October start)
portfolio or audition required	no
fit notes	PATH N. THE BEST FREE ENGLISH-TAUGHT ROW IN THE SLICE. English-taught (confirmed twice: "English (C1 required)" on the programme page and "Language of Instruction: English" on the TU Berlin course record), tuition-free, in Berlin, and ENGINEERING SCIENCES is an explicitly named entry route - a rare combination for a funding-first strategy, and the direct contrast with HTW N-137 (free but German-taught) and UdK/TU N-142 (free but German C1 for enrolment). accepts_engineering_bachelor = yes_explicit: "engineering sciences" is named verbatim among qualifying first degrees, and the client's 300-ECTS diploma exceeds any bachelor bar; note that the subject-credit lists here are RANKING POINTS, not eligibility gates, so an engineering applicant cannot be excluded for lacking economics credits - only out-ranked. It gives a software engineer the venture-building and innovation-management layer needed to take a music-tech product to market, and the year-two mobility option includes the University of Twente, which also hosts the Interaction Technology master on this same path - though taking it would forfeit the row's zero-cost advantage. RANK THIS AT OR NEAR THE TOP OF PATH N: it is free, English-taught, engineering-eligible, and needs no portfolio and no German. The one thing to fix before applying is the economics/sustainability ranking gap.

Flags

Only 50 places and admission is ranked on the first-degree grade plus prior credits in economics, statistics and methodology - an engineering diploma scores on maths/statistics but may score zero on the economics component. Application window closes in mid-May, far earlier than Dutch deadlines. || RANKING ARITHMETIC MATTERS HERE (refined this session): the 100 ranking points split 20/20/20/20/20 across economics, methodology-or-logic (min 5 ECTS), ecological and social sustainability (min 5 ECTS), mathematics (min 5 ECTS) and statistics (min 5 ECTS). A 300-ECTS software-engineering diploma should score the maths, statistics and methodology/logic blocks outright (60 of 100) but is likely to score 0 on economics and 0 on sustainability unless the client can evidence 5 ECTS in each. IDENTIFYING 5 ECTS OF ECONOMICS/MANAGEMENT AND 5 ECTS OF SUSTAINABILITY IN THE SMU TRANSCRIPT - OR TAKING TWO SHORT CREDITED COURSES BEFORE APPLYING - IS WORTH UP TO 40 RANKING POINTS AND IS THE HIGHEST-LEVERAGE PREPARATION ON THIS ROW. || CONFLICT: application_deadline was "approx. mid May" (undated), official TU Berlin dates page says 01.04.2026 - 15.05.2026 for English-language restricted-admission masters, winter semester 2026/2027 (<https://www.tu.berlin/en/studying/applying-and-enrolling/dates-deadlines>). || DOUBLE-DEGREE COST TRAP: the year-2 University of Twente option carries Dutch tuition. As a non-German-bachelor holder the client is NOT obliged to go abroad, and should not, on funding-first logic. || C1 English is stated as a level, not as a test score - the accepted certificates were not published on any page opened. || No scholarship verified; the row is free but unfunded for living costs.

Do I qualify? YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	Spanish	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	None stated; Spanish B2 required instead	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Andalusian Distrito Unico Andaluz (DUA) single application: one form covers all 9 public Andalusian universities, ranking up to 6 masters by preference. Non-EHEA degrees need NO homologacion - DUA states VERBATIM: 'sin necesidad de homologacion del titulo, pero si de comprobacion por parte de la universidad del nivel de formacion que implican, siempre y cuando en el pais donde se haya expedido dicho titulo permita acceder a estudios del nivel de posgrado'. Requires DUA Anexo II 'Modelo de certification de acceso a estudios de masteres oficiales en el pais de origen' from the home university. DUA access list of 95 entries including 19 Informatica variants and 10 Telecomunicacion variants - Ingenieria Informatica is named EXPLICITLY. Spanish B2 (CEFR) required of foreign applicants - stated on the DUA ficha. This is the real barrier, not money.

Facts

Degree awarded	Master Universitario (official title, RUCT-registered - titulo oficial)	Institution type	Public university
City	Granada	Country	Spain
Mobility	single_site	Language	Spanish
Duration (months)	12	ECTS	60
Tuition, non-EU / yr	820.80		
Tuition notes	Master NO habilitante, Grupo 3 (Ingenierias y Arquitectura), 1a matricula = 13,68 EUR/credit. ARITHMETIC: 13,68 x 60 ECTS = 820.80 EUR total. Add one-off admin fees: apertura de expediente 59,10 + tarjeta identidad 5,70 = 64,80. Master title issue 176,00 on graduation. UGR fee page opened this session confirms 13,68/12,62 under Decreto 98/2023 with no extracomunitario line. NO non-EU surcharge applies. Andalusian Decreto 98/2023 (BOJA 84, 05/05/2023) Anexo I apdo.1. Column heading verbatim: 'Precio segun la vez de matricula / 1.a 2.a 3.a 4.a y ss.' - bands are keyed ONLY to enrolment attempt and experimentality group; NO column is keyed to nationality or residence. Art.3.1-3.2 is the only nationality article: non-EEA/Swiss students pay 'los precios previstos en este decreto'; art.3.2 merely PERMITS a university to vary the credit price for NON-RESIDENT foreigners (cap 100% of cost of service). Decreto 142/2025 (BOJA 172, 08/09/2025) amends only arts.5/6/12/14/DF1 and Anexo I apdo.2 (administrative fees) - it leaves art.3 and the per-credit table untouched, so these rates stand for 2026/27.		
2027 intake confirmed	2026/27 cycle confirmed on DUA (start 01/10/2026, end 30/09/2027); 2027/28 TBC		
Applications open	13 January (Fase 1, reserved exclusively for applicants with foreign qualifications; 2026/27 cycle ran 13-29 Jan 2026)		
Deadline	29 January (Fase 1 non-EU deadline); Fase 2 ordinaria 17-26 June; Fase 3 extraordinaria later		
Which cycle	2026 cycle - 2027 TBC	English required	None stated; Spanish B2 required instead

How to stand out here

Lead with the engineering, not the enthusiasm. A committee here sees musicians who cannot code far more often than the reverse — a working DSP or MIR project, with the code readable, is worth more than a finished track. Name the group or lab you want to work with in the motivation letter; on this path that single sentence separates real applicants from browsers.

Also recorded

portfolio or audition required	no	scholarship available	TBC
scholarship names	TBC	tunisia eligible	TBC
fit notes	Best pure AI/ML route in Andalusia for this client. UGR is a genuine ML powerhouse (DaSCI institute). PATH-C RESEARCH-GROUP GATE PASSED: UGR's Dept. de Teoria de la Senal, Telematica y Comunicaciones hosts SigMAT - 'Signal Processing, Multimedia Transmission and Speech/Audio Technologies Group', Junta de Andalucia research group code TIC-234 (https://sigmat.ugr.es/). Its stated lines include speech recognition, VOICE CODING AND SYNTHESIS, speaker recognition and multimedia signal enhancement. The play is to take DATCOM and steer the 'Trabajo Fin de Master' into speech/audio signal processing with SigMAT. 300-ECTS diploma far exceeds entry. ~821 EUR total tuition.		

Flags

Generic data-science/ML master - there is NO audio or music content in the curriculum itself; the audio angle depends entirely on choosing a TFM with SigMAT. Taught in Spanish. Scholarships not investigated.

fit notes	THE ONLY ENGLISH-TAUGHT ENGINEERING MASTER FOUND IN ANDALUSIA and it explicitly admits computer-science graduates. That removes the Spanish-B2 barrier which blocks almost every other row in this file, at a habilitante rate of 12,62/credit (~1,136 EUR for 90 ECTS). Telecom curriculum carries signal-processing content relevant to audio. Client's 300-ECTS diploma far exceeds entry; only a B1 English certificate is missing.		

Flags

Linares is a small industrial town, not Jaen city - very limited music scene, the weakest location in this file for the client's DJ/producer track. Habilitante degree, so complementos formativos are possible even though Informatica is on the access list. UJA fee page not opened this session; rate taken from the region-wide decree. ECTS unverified. No English test taken yet by the client - B1 is a low bar but must be certified.

Do I qualify?

YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	IELTS Academic 6.5 overall with no section below 6.0; or TOE	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: A completed Bachelor's degree of MINIMUM 180 ECTS (or equivalent) from an internationally recognised university. Explicitly: "Applicants following LONGER TECHNICAL PROGRAMMES and who have completed courses equivalent to an amount of 180 ECTS will be considered on a case-by-case basis." For HCID/XR specifically: a BSc in Computer Science, Information Systems, Mathematics, Statistics, or Electrical/Electronic Engineering; applicants from industrial design, media technology, computational linguistics or cognitive science may also be considered if they have 10-15 ECTS of calculus/matrix algebra/discrete maths/probability-statistics and 10-15 ECTS of imperative (procedural/object-oriented) programming. Applicants with a different bachelor may still apply by explaining the fit. Relevant professional or research experience in HCI, UX or XR is encouraged and should be described in the motivation letter. Plus IELTS/TOEFL as above.

Facts

Degree awarded	Double MSc degree from two partner universities plus an EIT certificate	Institution type	European consortium of public universities
City	Enschede (NL) and Madrid (ES) among the entry points	Country	Netherlands / Spain / rotating
Mobility	rotating	Language	English
Duration (months)	24	ECTS	120
Tuition, non-EU / yr	18000		
Tuition notes	EUR 9,000/semester = EUR 18,000/yr for a citizen of a non-EU/EEA country, against EUR 6,000/yr for EU/EEA, per the official fees table. Holding an EU/EEA residence permit or having previously studied in the EU/EEA does NOT move you to the EU rate. Application fee EUR 75 (non-refundable, never waived); registration deposit EUR 250; a further EUR 500 deposit within 7 days if awarded a reduction of 50% or more.		
2027 intake confirmed	yes - "The application for the 2027/28 intake will open in Fall 2026" (stated on both the programme and admissions pages, 2026-08-22)		
Applications open	Fall 2026 for the 2027/28 intake. For the 2026 cohort, Period 1 (the period aimed at non-EU applicants who need a residence permit) opened 31 October 2025.		
Deadline	2027/28 dates not yet published. For the 2026 cohort the non-EU-oriented Period 1 deadline (submit AND pay the 75 EUR fee) was 11 February 2026, offers 31 March 2026; Period 2 deadline 15 April 2026; Period 3 deadline 1 June 2026.		
Which cycle	2026 cycle dates recorded - 2027 TBC. The site states only that the 2027/28 application opens in Fall 2026. NON-EU APPLICANTS MUST USE PERIOD 1 (approx. late October to mid-February).		
English required	IELTS Academic 6.5 overall with no section below 6.0; or TOEFL iBT 92 total with min 21 per section and 22 in writing. Test results must be uploaded WITH the application - late submission is not accepted. Waived only for a degree taught in English in USA/Canada/UK/Ireland/Australia/New Zealand.		
Paths served	N		

Admissions: <https://masterschool.eitdigital.eu/admissions>

Funding

Coverage level	full_tuition	Scholarship available	yes
Tunisian eligible	yes		
EIT Digital full tuition fee waiver (Available to: All students) EIT Digital half tuition fee waiver (Available to: All students) BME tuition fee waiver up to EUR 3,500/semester (non-EU only, Hungary study country, STACKS with the EIT waiver up to a EUR 6,000/semester combined cap) KTH Joint Programme Scholarship (non-EU; entry students Period 1 ONLY) ELTE scholarship EUR 10,000/yr + EUR 1,000 travel for non-EU (FinTech/Data Science only; does NOT stack with an EIT scholarship) EIF Deferred Tuition Payment Plan (defer all fees until 6 months after graduation, then spread over 2 years) NOT ELIGIBLE: EIT Digital Scholarship of Excellence (waiver + living allowance) - "Available to: Citizens of EU/EEA countries"			

How to stand out here

Make the dual profile a thesis proposal rather than a biography: one sentence on the problem, one on why your engineering makes you the person to solve it.

Also recorded

portfolio or audition required	no
fit notes	Structurally perfect on paper: engineering bachelors named as eligible, a technical XR/HCI major with an innovation-and-entrepreneurship minor, an industry internship thesis, and TWO in-scope entry points - University of Twente and UPM Madrid. W3-3: ELIGIBILITY CONFIRMED AND UNUSUALLY FAVOURABLE FOR THIS CLIENT. HCID/XR names Computer Science and Electrical/Electronic Engineering as accepted BSc fields, and the general rule explicitly handles his exact case: 'applicants following LONGER TECHNICAL PROGRAMMES and who have completed courses equivalent to 180 ECTS will be considered on a case-by-case basis' - i.e. a 5-year 300-ECTS diploma is anticipated by the regulation rather than excluded by it. The maths and programming floors (10-15 ECTS each) are trivially cleared. Double degree from two universities plus an EIT certificate, a 2-week summer school, and a thesis done as a company internship. IF the Full tuition fee waiver really is open to all students, this becomes one of the strongest funding-first rows in the whole sweep: waiver on 36,000 EUR of fees at a top-tier consortium with a Dutch or Madrid entry year. IF it is EU-only, it is a 36,000 EUR self-funded programme and should drop sharply. RESOLVE THE SCHOLARSHIP QUESTION FIRST - nothing else about this row matters until it is answered. ORCHESTRATOR: admission text explicitly covers this client - "applicants following longer technical programmes ... equivalent to 180 ECTS will be considered on a case-by-case basis", so the 300-ECTS diploma is handled, not excluded. Realistic funded shape: full tuition waiver (open to all) + BME waiver stacked where Hungary is a study country, or the EIF deferred-payment plan, with living costs self-funded or covered by a separate scheme. Apply in Period 1.

Flags

CONFLICT RESOLVED 2026-08-22 by the orchestrator against the official fees page. Wave 1 recorded the EIT Digital funding scheme as closed to Tunisians; that is HALF WRONG and the error would have discarded a viable fully-funded route. The programme page's EU-only sentence describes the EC-sponsored Scholarships of Excellence ONLY. The central fees page states, verbatim, for the full and half tuition fee waivers: "Available to: All students". Only the Scholarship of Excellence (waiver PLUS living allowance) is restricted: "Available to: Citizens of EU/EEA countries". So a Tunisian can win a full tuition waiver but not the living allowance, and must fund living costs separately. || RESIDENCE-PERMIT TRAP: in Period 2, Twente and UNITN admit non-EU entrants only if they ALREADY hold a Dutch permit, so a Tunisian applying from Tunisia must apply in PERIOD 1. || Payment dates on the page (29 May / 30 Jun / 17 Jul 2026) belong to the 2026 cohort - 2027 dates TBC.

Master in Innovation and Entrepreneurship (MIE)

ESMT Berlin

Do I qualify? **YES – named explicitly**

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	NOT MANDATORY. ESMT states: 'Submitting an English proficient	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: 'A previous degree (at least Bachelor's equivalent) with excellent grades', no subject restriction. Ideally 0-3 years of postgraduate work experience; up to five years considered case by case. English test NOT mandatory (assessed in interview). GMAT/GRE NOT mandatory: 'GMAT or GRE scores are not obligatory if candidates can provide alternative evidence of quantitative skills or scientific training within their Bachelor studies through competitive grades in courses that included general quantitative courses; OR WITH A DEGREE IN ENGINEERING, natural sciences, mathematics, statistics, or another quantitative field'. Candidates who cannot show that may be required to sit the ESMT Business Admissions Test (BAT) or GMAT/GRE; there is no set minimum, but GMAT under 600 / GMAT Focus under 555 / GRE under 304 is 'usually not considered competitive'. Application package: online form with SHORT ESSAY QUESTIONS (including a dedicated scholarship essay), CV, academic transcripts from all higher education institutions, ONE recommendation on ESMT's form, test scores if needed, and a EUR 75 fee. Then a first screening, an online (Zoom) or on-campus interview assessing analytical and problem-solving skills, teamwork and English, then the Admissions Committee and - separately and afterwards - the Scholarship Committee. Class of 2025-2027 profile: 36 students, 21 nationalities, average age 24, average 1.2 years' work experience, four academic fields represented.

Facts

Degree awarded	MSc - Master in Innovation and Entrepreneurship (MIE), ESMT Berlin (state-recognised private business school)		
Institution type	private business school (staatlich anerkannt)	City	Berlin
Country	Germany	Mobility	single_site
Language	English	Duration (months)	24
ECTS	TBC - not published on the programme, admissions or fees pages	Tuition, non-EU / yr	18000
Tuition notes	ESMT official fees page: 'Cost of tuition for master's programs: 36,000 Euros' for the two-year MSc, i.e. EUR 18,000 per year, 'paid in three installments over two academic years'. The fee covers all courses and seminars, teaching materials, orientation and career support. NO EU/non-EU differential - the same EUR 36,000 applies to all nationalities. ESMT recommends budgeting about EUR 1,200 a month for living expenses in Berlin on top. A EUR 75 application fee applies. Small extra: applicants who visit the Berlin campus and subsequently enrol receive a EUR 150 tuition discount.		
2027 intake confirmed	TBC - the site is currently marketing the September 2026 intake ('last chance to apply, final places released, filled on a rolling basis'). A September 2027 intake follows the annual pattern but is not yet advertised. NOTE for 2026: ESMT's own banner reads 'Sep 2026 MIE: places available for driven candidates WHO DO NOT NEED A STUDENT ENTRY VISA' - the remaining 2026 places are closed to visa-requiring applicants, which is exactly the client's category, so 2027 is the realistic target and applying early in that cycle matters.		
Applications open	Rolling - ESMT runs rounds with early-application deadlines; applications are assessed and places filled on a rolling basis		
Deadline	Rolling, with numbered application rounds. Early Application Awards are tied to rounds one and two and 'must be submitted by 11:59pm Berlin time on the deadline day to qualify'; all 2026 Early Application Awards have already been granted. Specific 2027 round dates are not published. e-fellows scholarship deadline: 31 July.		
Which cycle	2026 cycle - 2027 TBC		

English required	NOT MANDATORY. ESMT states: 'Submitting an English proficiency test score (TOEFL, IELTS or TOEIC) is not mandatory. Your English language skills are also assessed in the selection interview', and a waiver is automatic for native speakers or holders of a fully English-taught university degree. Where a test IS required, the minimum is TOEFL overall 5.0 with 5.0 in each of Reading, Listening, Speaking and Writing (2026 scoring; ESMT institution code 8707), OR IELTS 7.0, OR TOEIC 850. Interviews are conducted in English and benchmarked to CEFR B2 or higher.

Admissions: <https://esmt.berlin/master-programs/master-innovation-entrepreneurship/admissions>

Funding

Coverage level	full_tuition	Scholarship available	yes
Tunisian eligible	YES, and exceptionally well. The PANZER SCHOLARSHIP is worth EUR 35,000 against a EUR 36,000 total tuition and its eligibility is: 'candidates applying to ESMT Master programs who (a) are aged 30 or younger, (b) are BOTH A CITIZEN AND CURRENT RESIDENT OF A COUNTRY IN AFRICA, and (c) HAVE FOUNDED A BUSINESS OR SOCIAL ENTERPRISE'. The client is a Tunisian citizen resident in Tunisia and (assuming he is under 30) meets (a) and (b) outright; (c) is the only condition to engineer. Two are awarded. Recipients 'who embrace a change-maker mindset' are additionally eligible for the TSH Talent Foundation Changemaker Scholarship Program, which funds 10 months of housing at The Social Hub in Berlin plus mentorship - availability subject to final confirmation. Together that is effectively full tuition plus accommodation. Secondary fallbacks with no nationality bar: Next Unicorn (EUR 6,000, MIE-only, for founders), Outstanding Student Leadership (EUR 8,000), Social Impact Award (EUR 5,000), High Achievers GMAT/GRE (EUR 5,000). All scholarships are applied for through the scholarship essay inside the ordinary online application - there is no separate form - and the Scholarship Committee meets after the Admissions Committee, with the decision communicated in the same email as the admission result.		
	PANZER SCHOLARSHIP (EUR 35,000, two available) plus the linked TSH Talent Foundation CHANGEMAKER SCHOLARSHIP PROGRAM (10 months of housing at The Social Hub Berlin plus mentorship); Next Unicorn Scholarship (up to EUR 6,000, five, MIE-only); Outstanding Student Leadership Scholarship (up to EUR 8,000, two); High Achievers GMAT/GRE Scholarship (up to EUR 5,000, four, requires a GMAT/GRE percentile above 94); Social Impact Award (up to EUR 5,000, two); e-fellows Master scholarship (EUR 5,000, two, deadline 31 July); ESMT Family Grant (EUR 3,500) and Siblings Tuition Grant (EUR 2,000); Early Application Awards (round-based, 2026 round exhausted). NOT applicable: the four Women's scholarships, the BMW Group Change Maker Fellowship (closed, and nationality-restricted to Germany, India, Portugal, Romania, Brazil, China, USA, South Africa), and the Developing Country LDC/LLDC scholarships (up to 50% of tuition, but restricted to UN-designated Least Developed or Landlocked Developing Countries - Tunisia is neither).		

How to stand out here

These rooms are full of business graduates and short of people who can ship software. Frame the producer half as market knowledge and the engineer half as execution capability, then point at one concrete artefact — a released track, a tool, a registered venture.

Also recorded

ects	TBC - not published on the programme, admissions or fees pages
intake 2027 confirmed	TBC - the site is currently marketing the September 2026 intake ('last chance to apply, final places released, filled on a rolling basis'). A September 2027 intake follows the annual pattern but is not yet advertised. NOTE for 2026: ESMT's own banner reads 'Sep 2026 MIE: places available for driven candidates WHO DO NOT NEED A STUDENT ENTRY VISA' - the remaining 2026 places are closed to visa-requiring applicants, which is exactly the client's category, so 2027 is the realistic target and applying early in that cycle matters.
portfolio or audition required	no
fit notes	REASSESS THIS ROW UPWARD - IT MAY BE THE STRONGEST FUNDING OPPORTUNITY IN THE SLICE. Under a funding-first strategy the Panzer Scholarship (EUR 35,000 against EUR 36,000 tuition, plus possible 10 months of Social Hub housing through the linked Changemaker programme) is the single largest award found for which this client is eligible ON NATIONALITY - Tunisia qualifies as an African country of citizenship and residence, the age cap is 30 or younger, and the third condition is simply having founded a business or social enterprise. The client should found a small music-tech or events venture NOW so that the founder condition is unambiguously met by the 2027 application. Credential: the entry bar is a bachelor's-equivalent degree with excellent grades and no subject restriction, and the client's engineering diploma additionally waives the GMAT/GRE, while an English test is not required at all - so the application is essays, one reference, transcripts and an interview. That is the lightest documentary burden of any row in the slice. Berlin's most credible venture-building master: the Summer Entrepreneurship Program, Sustainability Bootcamp, Corporate Innovation Project, DEEP Tech Innovation Program, NEXT Program, 3-6 month internships, up to 50% customisable content, electives across all ESMT MSc programmes, and access to Vali Berlin (ESMT's entrepreneurship hub) and the Institute for DEEP Tech Innovation - so a music-tech startup could genuinely be built and incubated during the degree. ESMT reports 230+ ventures founded by students and alumni and EUR 250m+ raised through the ESMT/Vali ecosystem. Graduates get an 18-month post-study residence permit in Germany. Cohort is small (about 36) and young (average age 24). THE HONEST CAVEAT REMAINS: the curriculum has no creative-industry or music content, so this serves the client's entrepreneurship path and his Berlin location goal, not his audio-technical development. Ranked on funding it should rise sharply; ranked on subject fit it stays mid-table.

Flags

MAJOR CONFLICT AND UPGRADE: scholarship_coverage_level was 'partial' with the note 'EUR 36000 total fee with explicitly PARTIAL scholarships only - the worst funding profile of any row on this path'. THAT IS WRONG. ESMT's master's scholarships page lists the PANZER SCHOLARSHIP at EUR 35,000 - 97% of the total EUR 36,000 tuition - restricted to applicants aged 30 or under who are a citizen AND resident of a country in AFRICA and have founded a business or social enterprise. A Tunisian founder under 30 is squarely inside that eligibility, and recipients also qualify for the TSH Changemaker Scholarship Program covering 10 months of Berlin housing (<https://esmt.berlin/master-programs/scholarships-financing>). Corrected to full_tuition. CONFLICT: accepts_engineering_bachelor was 'likely'; the admissions page names an engineering degree as a specific ground for waiving the GMAT/GRE requirement, and the degree requirement itself is subject-free, so upgraded to yes_explicit. CONFLICT: english_level_required was 'proof of English proficiency (TOEFL/IELTS) or a prior degree taught in English'; ESMT states a test is NOT mandatory at all and assesses English in the interview - one of the very few rows in the slice with no compulsory external English exam. CONFLICT: 'GMAT not stated as mandatory' - now confirmed explicitly not mandatory for engineering-degree holders. STILL OPEN / GENUINE RISKS: (1) ECTS is not published anywhere; (2) September 2027 dates and round deadlines are not published, and the two Panzer awards are almost certainly allocated early in the cycle, so this must be applied for in the first round; (3) ESMT's own banner states the remaining September 2026 places are only for candidates who DO NOT need a student entry visa - evidence that visa-requiring applicants are shut out once the cycle is late, which makes early application structurally necessary for this client; (4) the eligibility condition 'have founded a business or social enterprise' must be genuinely satisfied before applying; (5) W1's substantive criticism stands - the curriculum is generic innovation and entrepreneurship with NO creative-sector or music-industry content.

Audio Communication and Sonology (double-degree master specialisation)

Technische Universitat Berlin (Audio Communication Group) with the Institute of Sonology, Royal Conservatoire

Do I qualify? **YES – named explicitly**

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	German (year 1 at TU Berlin) and English (year 2 in The Hagu	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	IELTS 6.0 or TOEFL iBT 83 (stated on the TU Berlin double-de	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no audition stated; a RESEARCH PROJECT PROPOSAL must be subm	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: NOT a direct-entry programme. Official text: 'The dual degree programme is open to TU Berlin students enrolled in the Audio Communication and Technology master programme who successfully completed the mandatory modules up to 39 ECTS plus elective modules up to 21 ECTS.' So the client must first be admitted to the TU Berlin M.Sc. Audio Communication and Technology (see A-014), complete year 1 (60 ECTS), then be selected for the exchange. Listed prerequisites: proficiency in German at least TestDaF TDN 4 / CEFR equivalent; mathematical knowledge at engineering basic-studies level (Analysis I, Linear Algebra); knowledge of a programming language or a computer algebra system. For the exchange itself: English at IELTS 6.0 / TOEFL iBT 83 and a research project proposal. Year 2 at the Royal Conservatoire is 30 ECTS research project + 20 ECTS compulsory + 10 ECTS electives in Sonology.

Facts

Degree awarded	DOUBLE DEGREE: M.Sc. from TU Berlin + Master of Music (M.Mus.) from the Royal Conservatoire The Hague		
Institution type	Public technical university + conservatoire	City	Berlin (year 1) and The Hague (year 2)
Country	Germany and Netherlands	Mobility	rotating
Language	German (year 1 at TU Berlin) and English (year 2 in The Hague)	Duration (months)	24
ECTS	120 (year 1: 60 ECTS = 39 compulsory + 21 elective; year 2: 60 ECTS = 20 compulsory + 10 elective + 30 research project)		
Tuition, non-EU / yr	0 at TU Berlin (semester fee only, amount TBC) + 11488 at the Royal Conservatoire in year 2		
Tuition notes	TU Berlin: 'all students - including exchange students on this double degree program - must pay a fee per semester to cover the social contribution and the costs of public transport... This compulsory fee is not a tuition fee.' The amount is not stated on the programme page and the TU Berlin fees page could not be reached this session (404 on two URL guesses) - semester fee amount TBC. Royal Conservatoire The Hague, tuition page 'Newly enrolling students 2026-2027': Non-EEA students, bachelor's or master's degree programmes, EUR 11,488. (Statutory EEA rate is EUR 2,694; the client pays the non-EEA institutional rate.) Institutional fees are indexed annually, so the 2027-2028 figure will be slightly higher. Travel, accommodation and living costs are the student's own.		
2027 intake confirmed	programme live on the official page as of 2026-08-22; the 15 February deadline is stated as recurring ('for the current year'), so a 2027 round is expected but not printed with a year		
Applications open	not published; entry is by first being admitted to the TU Berlin M.Sc. Audio Communication and Technology, then applying internally to the exchange		
Deadline	15 February (stated as 'for the current year'); notification of exchange students by 15 April		
Which cycle	recurring annual deadline printed without a year on the official TU Berlin page - 2027 date not separately published		
English required	IELTS 6.0 or TOEFL iBT 83 (stated on the TU Berlin double-degree page) PLUS German TestDaF TDN 4 / CEFR equivalent as a listed prerequisite		

Paths served	A,C,G,H

Admissions: <https://www.tu.berlin/en/ak/study-and-teaching/degree-programs/audio-communication-and-sonology>

Funding

Coverage level	none_found	Scholarship available	TBC - DAAD Study Scholarships are the obvious route
Tunisian eligible	TBC - DAAD schemes are generally open to Tunisian nationals; confirm on the DAAD scholarship database		

· DAAD Study Scholarship (to verify); NL Scholarship for the Dutch year (to verify)

How to stand out here

Lead with the engineering, not the enthusiasm. A committee here sees musicians who cannot code far more often than the reverse — a working DSP or MIR project, with the code readable, is worth more than a finished track. Name the group or lab you want to work with in the motivation letter; on this path that single sentence separates real applicants from browsers.

Also recorded

portfolio or audition required	no audition stated; a RESEARCH PROJECT PROPOSAL must be submitted with the exchange application, and selection is on 'academic, artistic, personal and linguistic qualifications'
scholarship available	TBC - DAAD Study Scholarships are the obvious route
tunisia eligible	TBC - DAAD schemes are generally open to Tunisian nationals; confirm on the DAAD scholarship database

fit notes	in_scope = yes for both halves (Berlin city + The Hague, NL). BEST FUNDING PROFILE ON THE ENTIRE PATH: TU Berlin charges no tuition. mobility = rotating. W3-2 confirmed from the official page: the listed prerequisites are exactly this client's strengths - 'Mathematical knowledge on engineering basic studies level (Analysis I, Linear Algebra)' and 'Knowledge of a programming language or a computer algebra system'. A 5-year, 300-ECTS software-engineering diploma clears both with room to spare and clears any first-degree bar (the parent M.Sc. accepts a first university degree in science or ENGINEERING). Curriculum verified as genuinely relevant: digital signal processing, electroacoustics and room acoustics, virtual acoustics, music informatics and media art at TU Berlin; studio composition, DSP, algorithmic composition, live electronics, spatial sound at Sonology, with a 192-channel wave field synthesis studio and an 832-channel/2700-speaker WFS room in Berlin. The one blocker remains German TDN 4 before year 1 - budget roughly a year of German study, or use A-014 as the entry point and treat the double degree as an internal upgrade decided in Berlin.
-----------	--

Flags

GERMAN LANGUAGE GATE: TestDaF TDN 4 / equivalent required for the Berlin year - a hard, time-consuming prerequisite the client does not currently hold. Otherwise no accreditation concerns: both awards are fully state-recognised (TU Berlin M.Sc., NVAO M.Mus.). || Only 6 places per year. Entry is via the German-taught TU Berlin M.Sc., so the German requirement of H-003 most likely still binds in practice. || It is NOT a direct-entry programme: you enter the TU Berlin M.Sc. first and apply internally after completing 60 ECTS. The 15 February deadline is given with no year on the page. || MERGE: path agents disagreed on verification status (CONFLICT, PARTIALLY_VERIFIED, VERIFIED) - Wave 3 to adjudicate. || W3-2 2026-08-22 ADJUDICATION: the alleged language CONFLICT is NOT a conflict - the single TU Berlin page carries BOTH requirements side by side: under 'Selection and Admission' it asks for English at IELTS 6.0 / TOEFL iBT 83, and under 'Prerequisites' it asks for 'Proficiency in German at least on level TDN 4 / TestDaF of CEFR'. Both are required; the Royal Conservatoire's English-only page describes only the year-2 host requirement. Status moved from CONFLICT to PARTIALLY_VERIFIED. || Still unverified: the TU Berlin semester-fee amount (fees page 404'd on two URL attempts) and any year-with-the-deadline for the 2027 cycle. || CONFLICT: tuition_non_eu_eur_per_year year-2 component was carried as an unsourced note; official Royal Conservatoire page confirms EUR 11,488 non-EEA for 2026-2027 (<https://www.koncon.nl/en/application-process/tuitionfees>) and states institutional fees are indexed annually, so 2027-2028 will be higher.

Master of Film | Artistic Research in and through Cinema

Netherlands Film Academy / Nederlandse Filmacademie (Amsterdam University of the Arts - AHK)

Do I qualify?

YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	No TOEFL or IELTS is required. Applicants must have English	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	yes	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Open to all (moving-image) makers with a BACHELOR'S DEGREE - not only film or a film sub-discipline but also visual arts, digital media or performance arts. "With a BA in a COMPLETELY DIFFERENT FIELD you can also apply as long as you have enough professional experience as a visual maker." Candidates are expected to have AT LEAST THREE OR FOUR YEARS of professional practice in the visual arts and/or working with visual media. Makers with NO bachelor's degree but five years of relevant experience may also apply (an additional competence test may be required). A PORTFOLIO of (moving) images is mandatory, plus a RESEARCH PLAN (a question/topic/field to address over the two years, its relation to the applicant's artistic practice, its relevance and the intended method) AND a concrete PROJECT PROPOSAL to serve as a test case. Selection on CV and portfolio, motivation, research and project plan, and the ability to work both in a group and independently, followed by a live or online interview. Students must own a simple camera and a laptop capable of editing footage.

Facts

Degree awarded	Master of Film (MA), Amsterdam University of the Arts (AHK)	Institution type	Film school within a university of the arts (hbo)
City	Amsterdam	Country	Netherlands
Mobility	single_site	Language	English
Duration (months)	24	ECTS	TBC (two-year practice-driven master; the pages opened do not print an ECTS figure)
Tuition, non-EU / yr	8250		
Tuition notes	AHK INSTITUTIONAL FEE 2026/2027 for "Master Music, Choreography, Opera, Theatre, Film" = EUR 8,250 per year (an "exception rate" of EUR 6,540 exists for certain continuing students). Non-EU students pay TWO years of the institutional fee regardless of circumstances. PLUS a compulsory EUR 300 contribution towards teaching materials in the first year (covers the introduction week). Statutory EEA rate for comparison: EUR 2,694 (2026/2027). Source: https://www.ahk.nl/en/facilities/student-affairs/financial-matters/tuition-fees/ opened 2026-08-22. 2027/2028 rate not yet set.		
2027 intake confirmed	YES - explicitly. "Our application is closed for the programme starting September 2026. The application deadline for '27 - '29 is 12 January 2027."		
Applications open	TBC (application closed for the 2026 start; the 2027-2029 round runs to the January 2027 deadline)		
Deadline	12 January 2027, 12:00 CET for the 2027-2029 cohort. First-selection results mid February 2027; interviews March 2027 (dates to be announced); final results mid April 2027.		
Which cycle	2027 CYCLE - PUBLISHED AND DATED on the official application page. This is a real 2027 date, not an inferred one.		
English required	No TOEFL or IELTS is required. Applicants must have English at CEFR C1 - able to read academic texts, follow lectures, take part in discussion and write in English. The level is tested in the written submission and in the interview with the application committee.

Tunisian eligible	TBC
TBC	

How to stand out here

Show sound decisions, not sound design. Three short pieces where you can explain WHY each choice was made beat a long reel. Your engineering background is the differentiator: say plainly that you can build the tool as well as use it.

Also recorded

ects	TBC (two-year practice-driven master; the pages opened do not print an ECTS figure)		
application opens	TBC (application closed for the 2026 start; the 2027-2029 round runs to the January 2027 deadline)		
portfolio or audition required	yes		
scholarship available	TBC - the site has "Financing" and "Grants" pages under Practical matters, not opened this session		
scholarship names	TBC	scholarship coverage level	TBC
tunisia eligible	TBC		
fit notes	W3-3: THIS IS THE CHEAPEST NON-EU DUTCH MASTER IN THE WHOLE SLICE - EUR 8,250/yr against EUR 22,500-26,000 at Leiden/UvA - because AHK sets art-master institutional fees far below research-university rates. It is also the ONLY row in this slice with a HARD, PUBLISHED 2027 DEADLINE: 12 January 2027, 12:00 CET, results mid April 2027. On eligibility the degree is explicitly not a barrier ('a BA in a completely different field'); the barrier is three-to-four years of professional visual-maker practice plus a moving-image portfolio and a credible artistic research plan. FOR THIS CLIENT that is a stretch in 2027 but not absurd IF the music practice is reframed as audiovisual practice - music video, live visuals, AV performance, sound-for-image - and evidenced over the next year. The programme explicitly welcomes 'professionals from all disciplines of the film industry ... from direction to SOUND DESIGN and special effects' and 'makers who are keen to explore the innovative use of digital media', so a sound/AV research question would sit naturally in it. Action if pursued: build an AV portfolio and a research plan during 2026, and treat 12 January 2027 as a fixed date.		

Flags

COULD NOT OPEN OFFICIAL PAGE THIS SESSION (filmacademie.nl 302s to filmacademie.ahk.nl; sub-pages returned 404 through the fetch tool). Dedicated Sound Design provision at the Filmacademie is at BACHELOR level. || W3-3 2026-08-22: DEAD LINK RESOLVED AND ROW FULLY VERIFIED. CONFLICT: program_url was https://www.filmacademie.ahk.nl/master-film/programme/ which 404s; the live page is /en/master-programmes/master-of-film-artistic-research-in-and-through-cinema/. CONFLICT: tuition was TBC, the AHK institutional fee for a Master Film is EUR 8,250 per year for non-EEA students plus EUR 300 materials in year 1 (https://www.ahk.nl/en/facilities/student-affairs/financial-matters/tuition-fees/). THE BINDING CONSTRAINT IS NOT THE DEGREE, IT IS EXPERIENCE: 'at least three or four years of professional practice in the visual arts and/or working with visual media' plus a portfolio of moving images. A 2027 engineering graduate with a music portfolio but no film/visual-media practice will not clear that. There is also no scholarship confirmed for non-EU students on the pages opened.

Master Music Management (M.A.) - degree programme: Media and Communication Management

Hochschule Macromedia / Macromedia University of Applied Sciences - Berlin campus

Do I qualify?

YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English (listed in Macromedia's English-language master's ca	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	TBC - no CEFR level or test score is published on the progra	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no - personal interview only	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Quoted from the official page: 'Bachelor's degree with: 210 ECTS = 3-semester MA; 180 ECTS = 4-semester MA'. No subject restriction is stated anywhere. Campus locations Berlin and Munich. Process: online application, document check, then a personal interview. Content covers artist promotion, music marketing, streaming platforms, live revenue and cultural management.

Facts

Degree awarded	Master of Arts (M.A.), study programme 'Media and Communication Management', specialisation Music Management. State-recognised (staatlich anerkannt): 'All degree programmes are accredited according to German higher education law, recognised by the state ministry of Baden-Wuerttemberg and quality assured within the framework of the Macromedia University's system accreditation. In 2016, the institutional accreditation was confirmed by the Science Council.'		
Institution type	Private state-recognised university of applied sciences	City	Berlin
Country	Germany	Mobility	single_site
Language	English (listed in Macromedia's English-language master's catalogue; a German-language version also exists). NOTE: the page carries no explicit 'teaching language' field, so this is inferred from the catalogue, not stated.		
Duration (months)	18 (3 semesters, 90 ECTS) or 24 (4 semesters, 120 ECTS)	ECTS	90 (3 semesters) or 120 (4 semesters)
Tuition, non-EU / yr	13680		
Tuition notes	Read on the official programme page this session: 6,840 EUR per semester at the BERLIN campus, plus a one-off registration fee of 699 EUR. Same rate published for all students - Macromedia operates no separate non-EU rate. ARITHMETIC: two semesters per year = 13,680 EUR/year. For this client the relevant route is the 3-semester / 90-ECTS master (see fit_notes): 3 x 6,840 = 20,520 EUR + 699 = 21,219 EUR TOTAL. The 4-semester route would be 4 x 6,840 = 27,360 + 699 = 28,059 EUR. Payment by semester, by month, one-off, or deposit plus monthly instalments; Flywire supported for international payments. For comparison the identical Media and Communication Management master costs 6,000 EUR/semester at Macromedia's MUNICH campus - about 3,360 EUR less over three semesters - but Munich is outside the brief's geographic scope.		
2027 intake confirmed	YES - the official page's 'Start of studies' selector lists October 2026, April 2027, OCTOBER 2027 and April 2028		
Applications open	Rolling		
Deadline	Summer semester 1 April; winter semester 1 October - identical to the start dates. For a 2027 entry: 1 April 2027 (summer start) or 1 October 2027 (winter start).		
Which cycle	2027 cycle CONFIRMED - the official page explicitly offers October 2027 and April 2027 starts, and the deadlines are the standing annual 1 April / 1 October		
English required	TBC - no CEFR level or test score is published on the programme or admission-and-fees pages		
Paths served	J		

Admissions: <https://www.macromedia-fachhochschule.de/en/master/music-management/admission-fees/>

Funding

Coverage level	partial	Scholarship available	yes
Tunisian eligible	TBC for the Macromedia partial scholarships (no nationality rule published); NO for KfW and BAfoeG, which are explicitly restricted to German/EU nationals		
Macromedia partial scholarships Erasmus+ opportunities Brain Capital education fund (study now, pay later) KfW student loan (German and EU nationals only) BAfoeG (EU citizens resident in Germany only)			

How to stand out here

These rooms are full of business graduates and short of people who can ship software. Frame the producer half as market knowledge and the engineer half as execution capability, then point at one concrete artefact — a released track, a tool, a registered venture.

Also recorded

english level required	TBC - no CEFR level or test score is published on the programme or admission-and-fees pages
portfolio or audition required	no - personal interview only
tunisia eligible	TBC for the Macromedia partial scholarships (no nationality rule published); NO for KfW and BAfoeG, which are explicitly restricted to German/EU nationals
fit notes	ADVANCED-STANDING FLAG - THIS IS A DIRECT SAVING FOR THIS CLIENT. Macromedia sets the bar as a pure ECTS quantity: 210 ECTS buys the SHORT 3-semester / 90-ECTS master, 180 ECTS only the 4-semester / 120-ECTS one. The client's 5-year, 300-ECTS engineering diploma is 90 ECTS above the 210 threshold, so he takes the 18-month route: half a year less and 6,840 EUR less than a 180-ECTS holder would pay, for the same M.A. Total 21,219 EUR including the registration fee. English-taught in Berlin with no German requirement, no subject bar, no portfolio and no audition - just an interview. Content is artist promotion, music marketing, streaming platforms, live revenue and cultural management. After Berklee this is the most directly on-target music-business master in the sweep, and unlike Berklee its 2027 intake is already confirmed (October 2027). Weakness remains funding: BAfoeG and KfW are EU-only, leaving only unquantified Macromedia partial scholarships.

Flags

Fees are high for Germany (EUR 13,680/year; EUR 20,520-27,360 total) and the two named funding instruments with real money behind them (BAfoeG, KfW) are explicitly EU-only, so a Tunisian student is left with unquantified 'partial scholarships'. The degree is state-recognised via Macromedia's system accreditation recognised by the BADEN-WUERTTEMBERG ministry while the campus is in Berlin - normal for this provider but worth confirming. English-language level requirement is not published. Note both site and PDF fee pages block automated access; figures above were read from the live official page || W3-1 2026-08-22: the site is now fully reachable (HTTP 200) and everything was re-read directly. Fees, ECTS, the 210/180 rule, the 1 April / 1 October deadlines, the Berlin campus and the accreditation wording all confirmed verbatim. NEW: the start-of-studies list explicitly includes OCTOBER 2027, so the 2027 intake is confirmed - one of only three rows in this slice where that is true. || CONFLICT: accepts_engineering_bachelor was 'likely', official page says yes_explicit (<https://www.macromedia-fachhochschule.de/en/master/music-management/>) - the admission requirement is stated purely as an ECTS quantity ('Bachelor's degree with 210 ECTS / 180 ECTS') with NO subject condition at all. || English level is STILL unpublished after two waves. For a client who has not sat a test this is a real unknown - ask before applying. || Berlin costs 6,840 EUR/semester against 6,000 EUR at Munich for the identical programme - a 14% Berlin premium.

Master of Arts in Global Entertainment and Music Business (GEMB)

Berklee College of Music - Valencia Campus

Do I qualify?

LIKELY – not named, not excluded

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	TOEFL iBT 100 (exams before 21 Jan 2026); IELTS Academic 7.5	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	yes - 1-minute self-produced video pitch (no musical audiotio	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Online application + USD 150 fee; statement of purpose 400-500 words in English; CV in English; one professional letter of recommendation; official transcripts; English test; GEMB-specific portfolio = link to a self-produced video (max 1 min) pitching one original product/service/initiative. Programme seeks candidates with executive/managerial goals, prior academic success, prior business knowledge and industry understanding. No music degree required and no degree field is specified

Facts

Degree awarded	Master of Arts (MA) - US NECHE-accredited AND accredited in Spain in collaboration with Universitat Politecnica de Valencia		
Institution type	Private music college (US institution; Spanish 'Centro Superior Autorizado de Enseñanzas Artísticas de la Música')		
City	Valencia	Country	Spain
Mobility	single_site	Language	English
Duration (months)	12	ECTS	60
Tuition, non-EU / yr	TBC		
Tuition notes	BERKLEE VALENCIA PUBLISHES IN US DOLLARS ONLY - no EUR figure exists on the official page and none is invented here. Read this session from the official cost page, headed '2026/2027 Academic Year' and 'the direct costs charged by the college for the graduate programs starting in September 2026': all graduate programmes run three semesters (fall, spring, summer) = one full academic year. Tuition 50,430 USD. Application fee 150 USD (waived for Berklee alumni). Non-refundable tuition deposit 2,500 USD, credited against the first tuition payment. Comprehensive fee 1,600 USD, charged on entering the fall semester. Software/equipment bundles 200-850 USD depending on programme (the 2,990 USD Professional Recording Services Fee applies only to the Scoring for Film, Television and Video Games master, NOT to GEMB). Health insurance up to 3,000 USD, may be waived. Housing 10,000-12,000 USD. Books 300-800 USD. TOTAL DIRECT COST for GEMB is therefore roughly 52,200-53,000 USD in college charges before housing, and about 63,000-66,000 USD all in. Billed in USD, so the euro cost floats with the exchange rate. The 2027/2028 schedule is not yet published.		
2027 intake confirmed	TBC - the published cost schedule is for programmes starting September 2026; the application deadlines are published without a year and recur annually		
Applications open	TBC - Berklee runs three rolling cycles (Early, Regular, Extended Action)		
Deadline	Early Action: application 1 November, SCHOLARSHIP 15 November. Regular Action: application 15 January, SCHOLARSHIP 1 February, decisions issued by 15 March. Extended Action: application 10 March, scholarship 10 March. All at 23:59 EST. Berklee itself advises Early Action for an earlier decision and more visa-preparation time.		
Which cycle	Deadlines are published undated on the official page and recur every year; the cost page is explicitly 2026/2027 - so 2027 cycle dates are expected to be the same but are TBC		
English required	TOEFL iBT 100 (exams before 21 Jan 2026); IELTS Academic 7.5; Duolingo 130; Cambridge CAE/C1 Business Higher. Waiver if prior degree taught in English		

Paths served	J
--------------	---

Admissions: <https://valencia.berklee.edu/graduate-admissions/how-to-apply>

Funding

Coverage level	partial	Scholarship available	yes
Tunisian eligible	yes - no nationality restriction stated for the General, Diversity or Outstanding Women scholarships; only CACSA is restricted (Valencian students)		

- Berklee General Scholarship (amount varies)
- Berklee Valencia Diversity Scholarship (up to 50% of tuition)
- Berklee Outstanding Women Scholarships with Mentorship (up to 70% of tuition; one per programme incl. GEMB)
- Berklee Alumni Scholarship (USD 18,000)
- Berklee Global Partners Scholarship (USD 18,000)
- Berklee CACSA - Palau de les Arts Scholarships (Valencian students only)
- Berklee Groove Scholarship (performance programmes only, not GEMB)

How to stand out here

These rooms are full of business graduates and short of people who can ship software. Frame the producer half as market knowledge and the engineer half as execution capability, then point at one concrete artefact — a released track, a tool, a registered venture.

Also recorded

tuition non eu eur per year	TBC		
intake 2027 confirmed	TBC - the published cost schedule is for programmes starting September 2026; the application deadlines are published without a year and recur annually		
application opens	TBC - Berklee runs three rolling cycles (Early, Regular, Extended Action)	portfolio or audition required	yes - 1-minute self-produced video pitch (no musical audition)
fit notes	FLAGSHIP of Path J. 300-ECTS engineering diploma vastly exceeds any entry bar and the quantitative/business profile matches what they say they select for; no music degree needed and no degree field is specified. English-taught, 12 months / 60 ECTS, Valencia - a priority-1 Spanish city after Barcelona and Madrid. The portfolio gate is a one-minute self-produced video pitching an original product, service or initiative, NOT a musical audition - so the client's in-progress music portfolio is not the blocker here; a software-engineer pitching a music-tech venture is exactly the profile. Dual Spanish (with UPV) and US NECHE accreditation makes it visa-safe and internationally recognised. THE ONLY QUESTION IS MONEY. Sequence for a serious attempt: apply Early Action by 1 November with the scholarship application by 15 November, and stack the General, Diversity and Outstanding Women awards to the 90% cap where eligible (the Outstanding Women award is not open to this client; General and Diversity are). If the award lands below about 70%, this is not affordable against the alternatives.		

Flags

ACCREDITATION IS CLEAN: an official Spanish degree accredited with Universitat Politecnica de Valencia plus a US NECHE degree - unusually strong for a private music school. FUNDING RISK: by far the most expensive programme on this path (USD 50,430 + ~USD 4,250 fees) and combined scholarships are capped at 90% of tuition; even a 50% award leaves ~USD 25k plus USD 10-12k housing. Tuition billed in USD so the EUR cost floats with FX. Scholarship deadlines are EARLIER than the matching programme deadlines || W3-1 2026-08-22 RE-VERIFIED the cost schedule and the deadline table on Berklee's own pages. Both confirmed exactly. Added detail: the 2,990 USD Professional Recording Services Fee does NOT apply to GEMB, and health insurance (up to 3,000 USD) may be waived. || THIS IS THE MOST EXPENSIVE ROW IN THE SLICE BY A LARGE MARGIN - roughly 63,000-66,000 USD all-in for one year, against about 4,000-4,600 EUR for the whole UPC AI master. Under an explicit FUNDING-FIRST strategy it can only be justified by a large scholarship, and the scholarship deadline (15 November for Early Action) falls TWO WEEKS AFTER the 1 November application deadline - so the application must be complete in October. || tuition_non_eu_eur_per_year deliberately left TBC: Berklee publishes no euro price and converting would fabricate a figure that moves with FX.

Master en Art Sonor (Master Studies in Sound Art)

Universitat de Barcelona - Facultat de Belles Arts

Do I qualify?

YES – named explicitly

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	English (site also published in Catalan and Spanish)	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	TBC - no test score published on any page of the programme s	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no - there is no portfolio or audition requirement. Selectio	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Quoted from the pre-registration page: 'Applicants for the master's degree must hold a bachelor's degree, ENGINEER, architect, or corresponding title (Spanish or foreign) that gives access to the postgraduate or master's degree, or have the corresponding accreditation certificate. It will not be possible to access the master's degree in sound art without a bachelor's degree.' No subject restriction whatsoever. Documents: copy of passport (for non-EU applicants), certified copy of the degree, academic transcript, a brief CV covering training and professional activity in sound art 'if any', and a motivation letter of at most 3,000 characters setting out the line of research or artistic production the applicant intends to develop. Selection is made by the master's teachers on the motivation letter, the academic record, the artistic CV and professional experience. Documents may be emailed to the coordinators; final enrolment must be done in person at the Faculty of Fine Arts.

Facts

Degree awarded	Master propi Universitat de Barcelona (own title) - 90 ECTS, built from two 30-ECTS postgraduate certificates (Sound Design: Projection and Space; Sound Creation: Materials and Tools) plus a 30-ECTS Final Master's Project. Each postgraduate can be taken alone for its own certificate. Applicants without a bachelor's degree can only receive a university extension diploma, not the master.		
Institution type	Public university (own-title programme)	City	Barcelona
Country	Spain	Mobility	single_site
Language	English (site also published in Catalan and Spanish)		
Duration (months)	about 16-18, spread over TWO academic years: the two postgraduate courses run October-January and February-June in year 1, and the Final Master's Project runs in the first semester of the following academic year. The whole 90 ECTS must be started and finished inside those two academic years.		
ECTS	90 (30 + 30 + 30)	Tuition, non-EU / yr	4140
Tuition notes	OFFICIAL FEE PAGE READ THIS SESSION. Each of the three components costs 2,000 EUR plus 'university fees', which the page says vary each year and are 'around 70 euros'. ARITHMETIC: 3 x 2,000 = 6,000 EUR in tuition + about 3 x 70 = 210 EUR in university fees = about 6,210 EUR for the whole 90-ECTS master. Split by year: year 1 carries the two postgraduate courses = 2 x 2,070 = about 4,140 EUR (the figure recorded here); year 2 carries only the Final Master's Project = about 2,070 EUR. UB publishes ONE price - there is no separate non-EU rate. Payment rules: one component per registration (September or January), in full, within one week of receiving the payment sheet; no instalments.		
2027 intake confirmed	no - the published next teaching start is 13 October 2026; the 2027-2028 edition is not yet advertised, though pre-registration is open all year round		
Applications open	Pre-registration is open ALL YEAR ROUND. Enrolment (after acceptance) happens in two windows: mid-September to end of October (for the Sound Design postgraduate or the Final Master's Project) and mid-January to end of February (for the Sound Creation postgraduate or the Final Master's Project).		
Deadline	No hard deadline for pre-registration. Published 2025-26 module dates: Postgraduate in Sound Design - enrolment 1-30 October 2025, runs 14 Oct 2025 to 6 Feb 2026; Postgraduate in Sound Creation - enrolment 1-28 February 2026, runs 3 Mar to 30 Jun 2026. Next master's teaching start 13 October 2026. Admission decisions arrive about 15 days after full documentation is delivered.		

Which cycle	2025-26 module dates published, next teaching start 13 October 2026 - 2027 TBC	English required	TBC - no test score published on any page of the programme site

Coverage level	none_found	Scholarship available	no
Tunisian eligible	n/a for the programme itself (no scholarship exists). Of the external routes it names, AECID is the one open to non-EU nationals and worth a separate check.		
None. The programme's own scholarships page states: 'The Master's Degree does not have scholarships or other types of student grants.' It then points students at external routes - UB's own master's/postgraduate grant pages, the UB scholarship portal, AECID (Spanish Agency for International Cooperation), Universia, becas.com, Servibeca and Educaweb.			

How to stand out here

Lead with the engineering, not the enthusiasm. A committee here sees musicians who cannot code far more often than the reverse — a working DSP or MIR project, with the code readable, is worth more than a finished track. Name the group or lab you want to work with in the motivation letter; on this path that single sentence separates real applicants from browsers.

Also recorded

english level required	TBC - no test score published on any page of the programme site
portfolio or audition required	no - there is no portfolio or audition requirement. Selection rests on the motivation letter, academic record and artistic CV, and the CV explicitly says sound-art activity is included only 'if any'.
fit notes	PARTIAL MATCH - SONIC ARTS, SPATIAL WORK IMPLIED NOT SPECIFIED. This is the sonic-arts / spatial-composition wing of the path in Spain, run by UB's Laboratori d'Art Sonor at the Faculty of Fine Arts, with access to the sculpture workshop and image/audio editing studios and an ambition to show final work at venues such as Arts Santa Monica or Hangar. The Sound Design postgraduate is literally 'Projection and Space' - implementing a sound work in a specific space - so spatial practice IS the subject even though no ambisonics or multichannel module is named. STRENGTHS FOR THIS CLIENT, and they are unusual: entry names ENGINEERS explicitly, there is NO portfolio gate and no audition, pre-registration is open all year, teaching is in English, it is in Barcelona, and the whole 90-ECTS master costs about 6,210 EUR - cheaper than one year of almost anything in the Netherlands. WEAKNESSES: master propi rather than titulo oficial, zero scholarships by the school's own admission, two academic years of Barcelona living costs, and a contemporary-art rather than electronic-music-production orientation. Under a funding-first strategy this is one of the strongest cost-to-access rows in the slice; under a career-relevance test it serves the sound-art side of the client's ambition, not the DJ/producer side.

Flags

TITULO PROPIO, NOT OFICIAL. Modular structure (two separate postgraduate enrolments plus a project) complicates a single student-visa application. No tuition published. Entry requirements not published. || DEGREE TYPE UNRESOLVED - the page does not state whether this is a titulo oficial or a master propi. Given it is assembled from two separate postgraduate modules plus a final project, a master propi is far more likely; this must be settled before it can be relied on for scholarships or a visa. Modular structure may also complicate a single continuous student-visa enrolment. || W3-1 2026-08-22 - THE OPEN QUESTIONS ARE NOW ANSWERED. Fees, ECTS, structure, entry conditions and scholarships were all read on the programme's own UB pages this session. || CONFLICT: accepts_engineering_bachelor was 'unclear', official page says yes_explicit (<https://www.ub.edu/masterartsonor/en/preregistration/>) - the access clause literally names 'a bachelor's degree, ENGINEER, architect, or corresponding title' with no subject restriction. This is the clearest engineer-friendly admission text in the whole slice. || CONFLICT: ects was 'TBC - 70 per prior leads', official page says 90 ECTS (30 + 30 + 30) (<https://www.ub.edu/masterartsonor/en/structure/>). || CONFLICT: duration_months was '12', official page says the 90 ECTS are spread over TWO academic years - two taught semesters in year 1, Final Master's Project in the first semester of year 2 (<https://www.ub.edu/masterartsonor/en/structure/>). This roughly doubles living-cost exposure in Barcelona and matters for a student-visa file. || CONFLICT: tuition was 'TBC', official page says 2,000 EUR per component plus about 70 EUR university fees = about 6,210 EUR for the master (<https://www.ub.edu/masterartsonor/en/fees-and-payment/>). || VERIFIED NEGATIVE ON FUNDING: the programme states in writing that it has no scholarships or grants of any kind. Wholly self-funded. || INTERNAL INCONSISTENCY ON THE UB SITE: the structure page says Sound Creation runs in the first semester and Sound Design in the second, while the home page's pre-registration box and the enrolment page put Sound Design first (Oct-Feb) and Sound Creation second (Mar-Jun). Confirm the order with the coordinators before planning arrival dates. || VISA RISK IS REAL: this is a master propi enrolled as three separate components across two academic years, with in-person enrolment required at the Faculty of Fine Arts each time. Check with the Spanish consulate that this supports one continuous student visa.

Master Universitario en Logica, Computacion e Inteligencia Artificial (Logic, Computation and Artificial Intelligence)

Universidad de Sevilla (US) - E.T.S. Ingenieria Informatica

Do I qualify? **YES – named explicitly**

Checked against: 5-year software-engineering diploma · 300 ECTS · Tunisian national (non-EU) · Arabic, French, English · no English test sat yet · music portfolio in progress

Degree level	300 ECTS, 5-year engineering diploma	Clears every 180 / 210 / 240-ECTS bar in this dataset. A 210-ECTS threshold can also shorten the degree — see the notes below.
Subject match	engineering / computing	Credit volume is never the obstacle; a demand for credits in a NAMED subject is. Full admission text below.
Language	Spanish	He accepts any language of instruction. German is dispreferred, not excluded.
English evidence	None stated	No test sat yet — ~9 weeks from booking to a reported score.
Portfolio / audition	no	Portfolio is in progress; a portfolio gate is a scheduling problem, not a disqualification.

Admission text as published: Andalusian Distrito Unico Andaluz (DUA) single application: one form covers all 9 public Andalusian universities, ranking up to 6 masters by preference. Non-EHEA degrees need NO homologacion - DUA states VERBATIM: 'sin necesidad de homologacion del titulo, pero si de comprobacion por parte de la universidad del nivel de formacion que implican, siempre y cuando en el pais donde se haya expedido dicho titulo permita acceder a estudios del nivel de posgrado'. Requires DUA Anexo II 'Modelo de certificacion de acceso a estudios de masteres oficiales en el pais de origen' from the home university. DUA access list of 32 entries with 11 Informatica and 7 Telecomunicacion variants - Ingenieria Informatica named EXPLICITLY.

Facts

Degree awarded	Master Universitario (official title, RUCT-registered - titulo oficial)	Institution type	Public university
City	Seville	Country	Spain
Mobility	single_site	Language	Spanish
Duration (months)	12	ECTS	60 (not separately verified this session)
Tuition, non-EU / yr	820.80		
Tuition notes	Master NO habitante, Grupo 3 (Ingenierias y Arquitectura), 1a matricula = 13,68 EUR/credit. ARITHMETIC: 13,68 x 60 ECTS = 820.80 EUR total. Add one-off admin fees: apertura de expediente 59,10 + tarjeta identidad 5,70 = 64,80. Master title issue 176,00 on graduation. Universidad de Sevilla states VERBATIM: 'Como estudiante internacional, abonaras los mismos precios publicos que cualquier otra persona estudiante en la Universidad. El sistema de precios es igualitario y regulado por decreto autonomico, sin distincion por nacionalidad.' NO non-EU surcharge applies. Andalusian Decreto 98/2023 (BOJA 84, 05/05/2023) Anexo I apdo.1. Column heading verbatim: 'Precio segun la vez de matricula / 1.a 2.a 3.a 4.a y ss.' - bands are keyed ONLY to enrolment attempt and experimentality group; NO column is keyed to nationality or residence. Art.3.1-3.2 is the only nationality article: non-EEA/Swiss students pay 'los precios previstos en este decreto'; art.3.2 merely PERMITS a university to vary the credit price for NON-RESIDENT foreigners (cap 100% of cost of service). Decreto 142/2025 (BOJA 172, 08/09/2025) amends only arts.5/6/12/14/DF1 and Anexo I apdo.2 (administrative fees) - it leaves art.3 and the per-credit table untouched, so these rates stand for 2026/27.		
2027 intake confirmed	2026/27 cycle confirmed on DUA (start 01/10/2026, end 30/09/2027); 2027/28 TBC		
Applications open	13 January (Fase 1, reserved exclusively for applicants with foreign qualifications; 2026/27 cycle ran 13-29 Jan 2026)		
Deadline	29 January (Fase 1 non-EU deadline); Fase 2 ordinaria 17-26 June; Fase 3 extraordinaria later		
Which cycle	2026 cycle - 2027 TBC	English required	None stated
Paths served	A,C

Also recorded

portfolio or audition required	no	scholarship available	TBC
scholarship names	TBC	tunisia eligible	TBC
fit notes	Logged for completeness. Seville is a strong CS school and the fee is identical (~821 EUR), but without a verified audio group this ranks below UGR DATCOM and UMA ISIA for this client.		

Flags

PATH-C RESEARCH-GROUP GATE NOT CLEARED: no named audio/music/speech/signal research group was verified at US's CS department this session, so per the brief's rule this row is provisional for Path C. Theory-heavy (logic, natural computing) - the least applied of the Andalusian AI masters. US per-programme URL not resolved; only the faculty-wide master index was reachable. || Habilitante - restricted access, complementos formativos likely for a CS applicant. Informatica not named. ECTS unverified.
